Knightscope, Inc.

12,197,776 Shares of Class A Common Stock

This prospectus relates to the offer and resale of up to 12,197,776 shares of our Class A common stock, par value \$0.001 per share, by B. Riley Principal Capital, LLC (the “Selling Stockholder”). The shares included in this prospectus consist of shares of Class A common stock that we have issued or that we may, in our discretion, elect to issue and sell to the Selling Stockholder, from time to time after the date of this prospectus, pursuant to a common stock purchase agreement we entered into with the Selling Stockholder on April 4, 2022, as amended on April 11, 2022 (as amended, the “Purchase Agreement”), in which the Selling Stockholder has committed to purchase from us, at our direction, up to \$100,000,000 of our Class A common stock, subject to the terms and conditions contained in the Purchase Agreement. Concurrently with our execution of the Purchase Agreement on April 4, 2022, we issued 98,888 shares of Class A common stock, and may issue up to an additional 98,888 shares of Class A common stock if certain conditions are met, in each case, to the Selling Stockholder as consideration for its irrevocable commitment to purchase shares of our Class A common stock at our election and in our sole discretion, from time to time after the date of this prospectus, upon the terms and subject to the satisfaction of the conditions set forth in the Purchase Agreement. See “The Committed Equity Financing” for a description of the Purchase Agreement and “Selling Stockholder” for additional information regarding the Selling Stockholder.

We are not selling any shares of Class A common stock being offered by this prospectus and will not receive any of the proceeds from the sale of such shares by the Selling Stockholder. However, we may receive up to \$100,000,000 in aggregate gross proceeds from sales of our Class A common stock to the Selling Stockholder that we may, in our discretion, elect to make, from time to time after the date of this prospectus, pursuant to the Purchase Agreement.

The Selling Stockholder may sell or otherwise dispose of the shares of Class A common stock included in this prospectus in a number of different ways and at varying prices. See the section titled “Plan of Distribution” for more information about how the Selling Stockholder may sell or otherwise dispose of the shares of Class A common stock being offered in this prospectus. The Selling Stockholder is an “underwriter” within the meaning of Section 2(a)(11) of the Securities Act of 1933, as amended (the “Securities Act”).

Our Class B common stock is not publicly traded. Holders of Class A common stock and holders of Class B common stock have substantially identical rights, except that holders of class A common stock are entitled to one vote per share and holders of shares of Class B common stock are entitled to 10 votes per share. Holders of Class A common stock and holders of Class B common stock vote together as a single class on all matters submitted to a vote of stockholders, unless otherwise required by law or our certificate of incorporation. Each share of Class B common stock may be converted into a share of Class A common stock at any time at the election of the holder. See “Description of Capital Stock.”

Our Class A common stock is listed on The Nasdaq Global Market (“Nasdaq”) under the symbol “KSCP.” On May 10, 2022, the last reported sale price of our Class A common stock on Nasdaq was \$3.99 per share.

Overview

We are a developer of advanced physical security technologies focused on enhancing U.S. security operations. We design, develop, manufacture, market, and support Autonomous Security Robots (“ASRs”) with real-time on-site data collection and analysis and a proprietary interface for both indoor and outdoor usage. In addition, we developed and operate the Knightscope Security Operations Center (“KSOC”) software platform, which allows real-time data access, a service accessible to all our clients.

Our core technologies, which are designed to be a force multiplier, offer improved situational awareness to security professionals and are suitable for most environments that require security patrol coverage. We sell our solutions under an annual subscription, Machine-as-a-Service (“MaaS”) business model, which includes the ASR rental as well as maintenance, service, support, data transfer, KSOC access, docking stations, and unlimited software, firmware and select hardware upgrades. Our current strategy is to focus on servicing the United States for the foreseeable future before considering global expansion.

The Committed Equity Financing

On April 4, 2022, we entered into the Purchase Agreement and a registration rights agreement (the “Registration Rights Agreement”), with the Selling Stockholder. On April 11, 2022, we and the Selling Stockholder entered into an amendment to the Purchase Agreement. Pursuant to the Purchase Agreement, we have the right to sell to the Selling Stockholder up to \$100,000,000 of shares of our Class A common stock (the “Total Commitment”), subject to certain limitations and conditions set forth in the Purchase Agreement, from time to time during the term of the Purchase Agreement. Sales of Class A common stock to the Selling Stockholder under the Purchase Agreement, and the timing of any such sales, are solely at our option, and we are under no obligation to sell any securities to the Selling Stockholder under the Purchase Agreement. In accordance with our obligations under the Registration Rights Agreement, we have filed the registration statement, of which this prospectus forms a part, with the SEC to register under the Securities Act the resale by the Selling Stockholder of up to 12,197,776 shares of Class A common stock, consisting of (i) 98,888 shares of Class A common stock that we issued to the Selling Stockholder as consideration for its commitment to purchase shares of Class A common stock at our election under the Purchase Agreement (the “Initial Commitment Shares”), (ii) an aggregate of 98,888 shares of Class A common stock that we may issue to the Selling Stockholder as consideration for its commitment to purchase shares of Class A common stock at our election under the Purchase Agreement, if certain conditions are met, as described below (the “Additional Commitment Shares” and, together with the Initial Commitment Shares, the “Commitment Shares”), and (iii) up to 12,000,000 shares of Class A common stock that we may elect, in our sole discretion, to issue and sell to the Selling Stockholder, from time to time from and after the Commencement Date (as defined below) under the Purchase Agreement.

Upon the initial satisfaction of the conditions to the Selling Stockholder’s purchase obligations set forth in the Purchase Agreement (the “Commencement”), including that the registration statement, of which this prospectus forms a part, be declared effective by the SEC and the final form of this prospectus is filed with the SEC, we will have the right, but not the obligation, from time to time at our sole discretion over the 24-month period after the date on which the Commencement occurs (the “Commencement Date”), to direct the Selling Stockholder to purchase a specified amount of shares of Class A common stock (each, a “Purchase”), not to exceed the lesser of (i) 33.0% of the Purchase Volume Reference Amount (as defined below) applicable to such Purchase and (ii) 20% of the volume of the total aggregate number (or “volume”) of shares of our Class A common stock traded on Nasdaq during the applicable Purchase Valuation Period (as defined below) (such lesser amount of shares, the “Maximum Purchase Amount”) (and subject to certain additional limitations set forth in the Purchase Agreement) (the number of shares to be purchased giving effect to the Maximum Purchase Amount and all

such additional limitations, the “Purchase Share Amount”) by timely delivering written notice to the Selling Stockholder (each, a “Purchase Notice”) between 6:00 a.m. and 9:00 a.m., Eastern time, on any trading day (each, a “Purchase Date”), so long as (i) the closing sale price of our Class A common stock on the trading day immediately prior to such Purchase Date is not less than \$1.00 (subject to adjustment as set forth in the Purchase Agreement) (the “Threshold Price”) and (ii) all shares of Class A common stock subject to all prior Purchases and all prior Intraday Purchases (as defined below) by the Selling Stockholder under the Purchase Agreement have been received by the Selling Stockholder prior to the time such Purchase Notice is delivered by us to the Selling Stockholder.

The per share purchase price for the Purchase Share Amount that the Selling Stockholder is required to purchase in a Purchase effected by us pursuant to the Purchase Agreement, if any, will be determined by reference to the volume weighted average price of our Class A common stock (the “VWAP”) during the full primary (or “regular”) trading session on Nasdaq on the applicable Purchase Date, calculated in accordance with the Purchase Agreement, or, if either (i) the total aggregate volume of shares of our Class A common stock traded on Nasdaq reaches a threshold amount equal to five times the Purchase Share Amount to be purchased by the Selling Stockholder in such Purchase (calculated in accordance with the Purchase Agreement) (the “Purchase Volume Maximum”) prior to the official close of the regular trading session on Nasdaq on such Purchase Date, or (ii) the trading price of a share of our Class A common stock on Nasdaq falls below the applicable minimum price threshold specified by us in the Purchase Notice for such Purchase (or if no such minimum price threshold is specified by us in the Purchase Notice, the minimum price threshold will equal 75% of the closing sale price of our Class A common stock on the trading day immediately prior to the applicable Purchase Date for such Purchase) (the “Minimum Price Threshold”), then the VWAP will be calculated only for the period beginning at the official open (or “commencement”) of the regular trading session and ending at the earlier of (x) such time that the total aggregate volume of shares of our Class A common stock traded on Nasdaq reaches the Purchase Volume Maximum for such Purchase (as applicable) and (y) such time that the trading price of a share of our Class A common stock on Nasdaq falls below the Minimum Price Threshold (as applicable) (such period for each Purchase, the “Purchase Valuation Period”), less a fixed 3.0% discount to the VWAP for such Purchase Valuation Period.

The “Purchase Volume Reference Amount” is defined in the Purchase Agreement as such number of shares of shares of Class A common stock equal to the quotient obtained by dividing (i) the total aggregate volume of shares of Class A common stock traded during the full regular trading sessions on Nasdaq during the 10 consecutive trading day period ending on (and including) the trading day immediately preceding the Purchase Date for such Purchase, by (ii) 10.

In addition to the regular Purchases described above, if either (i) we do not effect a regular Purchase on a trading day that we otherwise could have selected as a Purchase Date for a regular Purchase pursuant to the Purchase Agreement (or we fail to timely deliver to the Selling Stockholder a Purchase Notice for a regular Purchase on such trading day) or (ii) we have timely delivered a Purchase Notice for a regular Purchase on a Purchase Date, and the Purchase Valuation Period for such Purchase has ended prior to 1:30 p.m., Eastern time, on such Purchase Date, then, in either case, we will also have the right, but not the obligation, subject to the continued satisfaction of conditions set forth in the Purchase Agreement, to direct the Selling Stockholder to purchase, on such same Purchase Date, an additional specified amount of our Class A common stock (each, an “Intraday Purchase”), not to exceed the applicable Maximum Purchase Amount for such purchase (and subject to certain additional limitations set forth in the Purchase Agreement) (the “Intraday Purchase Volume Maximum”), by the delivery to the Selling Stockholder of an irrevocable written purchase notice, after 10:00 a.m., Eastern time (and after the Purchase Valuation Period for any prior regular Purchase (if any) and the Intraday Purchase Valuation Period(s) (as defined below) for the most recent prior Intraday Purchase effected on the same Purchase Date (if any) has ended), and prior to 1:30 p.m., Eastern time, on such Purchase Date (each, an “Intraday Purchase Notice”), so long as, (i) the closing sale price of our Class A common stock on the trading day immediately prior to such Purchase Date is not less than the Threshold Price and (ii) all shares of our Class A common stock subject to all prior Purchases and all prior Intraday Purchases by the Selling Stockholder under the Purchase Agreement have been received by the Selling Stockholder prior to the time such Intraday Purchase Notice is delivered by us to the Selling Stockholder.

The per share purchase price for the shares of our Class A common stock that we elect to sell to the Selling Stockholder in an Intraday Purchase pursuant to the Purchase Agreement, if any, will be calculated in the same manner as in the case of a regular Purchase, provided that the VWAP for such Intraday Purchase will be measured during the portion of the normal trading hours on Nasdaq on the applicable Purchase Date that will begin 30 minutes after the latest of (i) the time that the applicable Intraday Purchase Notice is timely received by the Selling Stockholder, (ii) the time that the Purchase Valuation Period for any prior regular Purchase effected on the same Purchase Date (if any) has ended and (iii) the time that the Intraday Purchase Valuation Period (as defined below) for the most recent prior Intraday Purchase effected on the same Purchase Date (if any) has ended, and ending at the earliest of (x) the official close of the regular trading session on Nasdaq on such Purchase Date, (y) such time that the total aggregate volume of shares of our Class A common stock

traded on Nasdaq reaches a threshold amount equal to five times the Intraday Purchase Share Amount to be purchased by the Selling Stockholder in such Intraday Purchase (calculated in accordance with the Purchase Agreement) (the “Intraday Purchase Volume Maximum”) (as applicable), and (z) such time that the trading price of a share of our Class A common stock on Nasdaq falls below the applicable minimum price threshold specified by us in the Intraday Purchase Notice for such Intraday Purchase (or if no such minimum price threshold is specified by us in the Intraday Purchase Notice, the minimum price threshold will equal 75% of the closing sale price of our Class A common stock on the trading day immediately prior to the applicable Purchase Date for such Intraday Purchase) (the “Intraday Minimum Price Threshold”) (as applicable) (such period for each Intraday Purchase, the “Intraday Purchase Valuation Period”), less a fixed 3.0% discount to the VWAP for such Intraday Purchase Valuation Period.

There is no upper limit on the price per share that the Selling Stockholder could be obligated to pay for the Class A common stock we may elect to sell to it in any Purchase or any Intraday Purchase under the Purchase Agreement. The purchase price per share of Class A common stock that we may elect to sell to the Selling Stockholder in a Purchase and an Intraday Purchase under the Purchase Agreement will be equitably adjusted for any reorganization, recapitalization, non-cash dividend, stock split, reverse stock split or other similar transaction occurring during the applicable Purchase Valuation Period for such Purchase or during the applicable Purchase Valuation Period for such Intraday Purchase.

From and after the date on which the Commencement occurs, subject to the continued satisfaction of conditions set forth in the Purchase Agreement, we will control the timing and amount of any sales of Class A common stock to the Selling Stockholder. Actual sales of shares of our Class A common stock to the Selling Stockholder under the Purchase Agreement will depend on a variety of factors to be determined by us from time to time, including, among other things, market conditions, the trading price of our Class A common stock and determinations by us as to the appropriate sources of funding for our business and its operations.

Under the applicable Nasdaq rules, in no event may we issue to the Selling Stockholder under the Purchase Agreement more than 6,847,787 shares of our Class A common stock, which number of shares is equal to 19.99% of the sum of (i) the shares of our Class A common stock and (ii) the shares of our Class B common stock, in each case, issued and outstanding immediately prior to the execution of the Purchase Agreement (the “Exchange Cap”), unless (a) we obtain stockholder approval to issue shares of Class A common stock in excess of the Exchange Cap in accordance with applicable Nasdaq rules, or (b) the average price per share paid by the Selling Stockholder for all of the shares of Class A common stock that we direct the Selling Stockholder to purchase from us pursuant to the Purchase Agreement, if any, equals or exceeds \$4.6802 per share (representing the lower of the official closing price of our Class A common stock on Nasdaq on the trading day immediately preceding the date of the Purchase Agreement and the average official closing price of our Class A common stock on Nasdaq for the five consecutive trading days ending on the trading day immediately preceding the date of the Purchase Agreement, as adjusted in accordance with applicable Nasdaq rules). Moreover, we may not issue or sell any shares of Class A common stock to the Selling Stockholder under the Purchase Agreement which, when aggregated with all other shares of Class A common stock beneficially owned by the Selling Stockholder and its affiliates (as calculated pursuant to Section 13(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and Rule 13d-3 promulgated thereunder), would result in the Selling Stockholder beneficially owning more than 4.99% of the outstanding shares of Class A common stock (the “Beneficial Ownership Cap”).

The net proceeds under the Purchase Agreement to us will depend on the frequency and prices at which we sell shares of our Class A common stock to the Selling Stockholder. We expect that any proceeds received by us from such sales to the Selling Stockholder will be used to fund new technology development, new machines-in-network, general corporate and business purposes, and potential acquisitions.

There are no restrictions on future financings, rights of first refusal, participation rights, penalties or liquidated damages in the Purchase Agreement or Registration Rights Agreement, except we are prohibited (with certain specified exceptions) from effecting or entering into an agreement to effect certain “Variable Rate Transactions” (as defined in the Purchase Agreement), which include issuances of shares of our Class A common stock or securities exercisable, exchangeable or convertible into shares of our Class A common stock issued or issuable at a future-determined price or a price that varies or floats based on the market price of our Class A common stock, including an “equity line” with a third party, or any similar continuous offering of our equity securities. The Selling Stockholder has agreed that none of the Selling Stockholder, its sole member, any of their respective officers, or any entity managed or controlled by the Selling Stockholder or its sole member will engage in or effect, directly or indirectly, for its own account or for the account of any other of such persons or entities, any short sales of shares of our Class A common stock or hedging transaction that establishes a net short position in shares of our Class A common stock during the term of the Purchase Agreement.

The Purchase Agreement will automatically terminate on the earliest to occur of (i) the first day of the month next following the 24-month anniversary of the Commencement Date, (ii) the date on which the Selling Stockholder shall have purchased from us under the Purchase Agreement shares of Class A common stock for an aggregate gross purchase price of \$100,000,000, (iii) the date on which the Class A common stock shall have failed to be listed or quoted on Nasdaq or another U.S. national securities exchange identified as an “eligible market” in the Purchase Agreement, (iv) the 30th trading day after the date on which a voluntary or involuntary bankruptcy proceeding involving us has been commenced that is not discharged or dismissed prior to such trading day, and (v) the date on which a bankruptcy custodian is appointed for all or substantially all of our property or we make a general assignment for the benefit of creditors. We have the right to terminate the Purchase Agreement at any time after Commencement, at no cost or penalty, upon five trading days’ prior written notice to the Selling Stockholder. The Selling Stockholder has the right to terminate the Purchase Agreement upon five trading days’ prior written notice to us upon the occurrence of certain events set forth in the Purchase Agreement. We and the Selling Stockholder may also agree to terminate the Purchase Agreement by mutual written consent. In any case, no termination of the Purchase Agreement will be effective during the pendency of any Purchase that has not then fully settled in accordance with the Purchase Agreement. Neither we nor the Selling Stockholder may assign or transfer our respective rights and obligations under the Purchase Agreement or the Registration Rights Agreement.

As consideration for the Selling Stockholder’s commitment to purchase shares of Class A common stock at our direction upon the terms and subject to the conditions set forth in the Purchase Agreement, upon execution of the Purchase Agreement, we issued 98,888 Initial Commitment Shares to the Selling Stockholder. In addition, (i) upon our receipt of total aggregate gross cash proceeds equal to \$25,000,000 as payment by the Selling Stockholder for all shares of our Class A common stock purchased in all Purchases and Intraday Purchases (as applicable) effected by us pursuant to the Purchase Agreement, we will issue 59,333 additional shares of our Class A common stock to the Selling Stockholder as Additional Commitment Shares, and (ii) upon our receipt of total aggregate gross cash proceeds equal to \$50,000,000 from the Selling Stockholder under the Purchase Agreement, we will issue an additional 39,555 shares of our Class A common stock to the Selling Stockholder as Additional Commitment Shares, totaling 98,888 Additional Commitment Shares (in addition to the 98,888 Initial Commitment Shares we issued to the Selling Stockholder upon execution of the Purchase Agreement).

The Purchase Agreement and the Registration Rights Agreement contain customary representations, warranties, conditions and indemnification obligations of the parties. The representations, warranties and covenants contained in such agreements were made only for purposes of such agreements and as of specific dates, were solely for the benefit of the parties to such agreements and may be subject to limitations agreed upon by the contracting parties. Copies of the agreements have been filed as exhibits to the registration statement, of which this prospectus forms a part, and are available electronically on the website of the SEC at www.sec.gov.

We do not know what the purchase price for our Class A common stock will be and therefore cannot be certain as to the number of shares we might issue to the Selling Stockholder under the Purchase Agreement after the Commencement Date. As of March 31, 2022, there were 23,877,817 shares of our Class A common stock outstanding, all of which were held by non-affiliates, and 10,378,251 shares of our Class B common stock outstanding of which 378,251 shares were held by non-affiliates. Although the Purchase Agreement provides that we may sell up to \$100,000,000 of our Class A common stock to the Selling Stockholder, only 12,197,776 shares of our Class A common stock are being registered for resale by the Selling Stockholder under this prospectus, which represents (i) the 98,888 Initial Commitment Shares that we issued to the Selling Stockholder on April 4, 2022 under the Purchase Agreement, (ii) up to 98,888 Additional Commitment Shares that may be issued to the Selling Stockholder under the Purchase Agreement if certain conditions are met and (iii) up to 12,000,000 shares of Class A common stock that may be issued to the Selling Stockholder from and after the Commencement Date, if and when we elect to sell shares to the Selling Stockholder under the Purchase Agreement. Depending on the market prices of our Class A common stock at the time we elect to issue and sell shares to the Selling Stockholder under the Purchase Agreement, we may need to register for resale under the Securities Act additional shares of our Class A common stock in order to receive aggregate gross proceeds equal to the \$100,000,000 Total Commitment available to us under the Purchase Agreement. If all of the 12,197,776 shares of Class A common stock offered by the Selling Stockholder for resale under this prospectus were issued and outstanding as of the date hereof (without taking into account the 19.99% Exchange Cap limitation), such shares would represent approximately 33.8% of the total number of shares of our Class A common stock outstanding, approximately 33.8% of the total number of outstanding shares of Class A common stock held by non-affiliates and approximately 26.3% of the total combined number of shares of our Class A common stock and Class B common stock outstanding, in each case as of March 31, 2022. If we elect to issue and sell more than the 12,197,776 shares of Class A common stock offered under this prospectus to the Selling Stockholder, which we have the right, but not the obligation, to do, we must first register for resale under the Securities Act any such additional shares, which could cause additional substantial dilution to our stockholders. The number of shares ultimately offered for resale by the Selling Stockholder

is dependent upon the number of shares we may elect to sell to the Selling Stockholder under the Purchase Agreement from and after the Commencement Date.

There are substantial risks to our stockholders as a result of the issuance and sale of Class A common stock to the Selling Stockholder under the Purchase Agreement. These risks include substantial dilution, significant declines in our stock price and our inability to draw sufficient funds when needed. See “Risk Factors.” Issuances of our Class A common stock in this offering will not affect the rights or privileges of our existing stockholders, except that the economic and voting interests of each of our existing stockholders will be diluted as a result of any such issuance. Although the number of shares of Class A common stock that our existing stockholders own will not decrease, the shares owned by our existing stockholders will represent a smaller percentage of our total outstanding shares after any such issuance to the Selling Stockholder.

Summary of Risks

Our business and this offering are subject to a number of risks of which you should be aware before making a decision to invest in our Class A common stock. These risks include, among others, the following:

See Part I—Item 1A. Risk Factors of our [Annual Report on Form 10-K for the year ended December 31, 2021 \(the “2021 Annual Report”\)](#), which is incorporated by reference herein, for risks related to our business and operations.

It is not possible to predict the actual number of shares we will sell under the Purchase Agreement to the Selling Stockholder, or the actual gross proceeds resulting from those sales. Further, we may not have access to the full amount available under the Purchase Agreement with the Selling Stockholder.

The issuance and sale of our Class A common stock to the Selling Stockholder will cause dilution to our existing stockholders, and the sale of the shares of Class A common stock acquired by the Selling Stockholder, or the perception that such sales may occur, could cause the price of our Class A common stock to fall.

Investors who buy shares at different times will likely pay different prices and may experience different levels of dilution.

Our management team will have broad discretion over the use of the net proceeds from our sale of shares of Class A common stock to the Selling Stockholder, if any, and you may not agree with how we use the proceeds and the proceeds may not be invested successfully.

Implications of Being an Emerging Growth Company and Smaller Reporting Company

We qualify as an “emerging growth company” under the Jumpstart Our Business Startups Act of 2012, as amended (the “JOBS Act”). As a result, we are permitted to, and intend to, rely on exemptions from certain disclosure requirements. For so long as we are an emerging growth company, we will not be required to:

- have an auditor report on our internal controls over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act of 2002, as amended;
- comply with any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (i.e., an auditor discussion and analysis);
- submit certain executive compensation matters to stockholder advisory votes, such as “say-on-pay,” “say-on-frequency” and pay ratio; and
- disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the chief executive officer’s compensation to median employee compensation.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an

emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to take advantage of the benefits of this extended transition period. Our financial statements may therefore not be comparable to those of companies that comply with such new or revised accounting standards.

We will remain an “emerging growth company” for up to five years, or until the earliest of (i) the last day of the first fiscal year in which our total annual gross revenues are \$1.07 billion or more, (ii) the date that we become a “large accelerated filer” as defined in Rule 12b-2 under the Exchange Act, which would occur if the market value of our Class A common stock that are held by non-affiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter, or (iii) the date on which we have issued more than \$1 billion in non-convertible debt during the preceding three year period.

We are also a “smaller reporting company” as defined by Rule 12b-2 of the Exchange Act. We may continue to be a smaller reporting company even after we are no longer an emerging growth company. We may take advantage of certain of the scaled disclosures available to smaller reporting companies and will be able to take advantage of these scaled disclosures for so long as the market value of our voting and non-voting Class A common stock held by non-affiliates is less than \$250.0 million measured on the last business day of our second fiscal quarter, or our annual revenue is less than \$100.0 million during the most recently completed fiscal year and the market value of our voting and non-voting Class A common stock held by non-affiliates is less than \$700.0 million measured on the last business day of our second fiscal quarter.

RISK FACTORS

An investment in our Class A common stock involves a high degree of risk. Prior to making a decision about investing in our Class A common stock, you should carefully consider the following risks and uncertainties, as well as those discussed under the caption “Risk Factors” in the documents incorporated by reference herein. If any of the risks described in this prospectus or the documents incorporated by reference herein, actually occur, our business, prospects, financial condition or operating results could be harmed. In that case, the trading price of our Class A common stock could decline, and you may lose all or part of your investment. Additional risks and uncertainties not presently known to us or that we currently believe are immaterial may also impair our business operations and our liquidity. You should also refer to the other information contained in this prospectus, or incorporated by reference herein, including our financial statements and the related notes thereto and the information set forth under the heading “Cautionary Note Regarding Forward-Looking Statements.”

Risks Related to our Business

See Part I—Item 1A. Risk Factors of our [2021 Annual Report](#), which is incorporated by reference herein, for risks related to our business and operations.

Risks Related to the Offering

It is not possible to predict the actual number of shares we will sell under the Purchase Agreement to the Selling Stockholder, or the actual gross proceeds resulting from those sales. Further, we may not have access to the full amount available under the Purchase Agreement with the Selling Stockholder.

On April 4, 2022, we entered into the Purchase Agreement with the Selling Stockholder, as amended on April 11, 2022, pursuant to which the Selling Stockholder has committed to purchase up to \$100,000,000 of our Class A common stock, subject to certain limitations and conditions set forth in the Purchase Agreement. The shares of our Class A common stock that may be issued under the Purchase Agreement may be sold by us to the Selling Stockholder at our discretion from time to time over an approximately 24-month period commencing on the Commencement Date.

We generally have the right to control the timing and amount of any sales of our shares of Class A common stock to the Selling Stockholder under the Purchase Agreement. Sales of our Class A common stock, if any, to the Selling Stockholder under the Purchase Agreement will depend upon market conditions and other factors to be determined by us. We may ultimately decide to sell to the Selling Stockholder all, some or none of the shares of our Class A common stock that may be available for us to sell to the Selling Stockholder pursuant to the Purchase Agreement. Depending on market liquidity at the time, resales of those shares by the Selling Stockholder may cause the public trading price of our Class A common stock to decrease.

Because the purchase price per share to be paid by the Selling Stockholder for the shares of Class A common stock that we may elect to sell to the Selling Stockholder under the Purchase Agreement, if any, will fluctuate based on the market prices of our Class A common stock during the applicable Purchase Valuation Period for each Purchase made pursuant to the Purchase Agreement, if any, it is not possible for us to predict, as of the date of this prospectus and prior to any such sales, the number of shares of Class A common stock that we will sell to the Selling Stockholder under the Purchase Agreement, the purchase price per share that the Selling Stockholder will pay for shares purchased from us under the Purchase Agreement, or the aggregate gross proceeds that we will receive from those purchases by the Selling Stockholder under the Purchase Agreement, if any.

Moreover, although the Purchase Agreement provides that we may sell up to an aggregate of \$100,000,000 of our Class A common stock to the Selling Stockholder, only 12,197,776 of our Class A common stock (197,776 of which represent the Commitment Shares we issued to the Selling Stockholder upon signing the Purchase Agreement, or may issue if certain conditions are met, in each case, as payment of a commitment fee for the Selling Stockholder’s obligation to purchase shares of our Class A common stock under the Purchase Agreement) are being registered for resale under the registration statement that includes this prospectus. If after the Commencement Date we elect to sell to the Selling Stockholder all of the 12,197,776 shares of Class A common stock being registered for resale under this prospectus that are available for sale by us to the Selling Stockholder in Purchases and Intraday Purchases under the Purchase Agreement, depending on the market prices of our Class A common stock during the applicable Purchase Valuation Period and Intraday Purchase Valuation Period for each Purchase and each Intraday Purchase, respectively, made pursuant to the Purchase

Agreement, the actual gross proceeds from the sale of all such shares may be substantially less than the \$100,000,000 Total Commitment available to us under the Purchase Agreement, which could materially adversely affect our liquidity.

If it becomes necessary for us to issue and sell to the Selling Stockholder under the Purchase Agreement more than the 12,197,776 shares being registered for resale under the registration statement that includes this prospectus in order to receive aggregate gross proceeds equal to the Total Commitment of \$100,000,000 under the Purchase Agreement, we must file with the SEC one or more additional registration statements to register under the Securities Act the resale by the Selling Stockholder of any such additional shares of our Class A common stock we wish to sell from time to time under the Purchase Agreement, which the SEC must declare effective and we will need to obtain stockholder approval to issue shares of Class A common stock in excess of the Exchange Cap under the Purchase Agreement in accordance with applicable Nasdaq rules, unless the average per share purchase price paid by the Selling Stockholder for all shares of Class A common stock sold under the Purchase Agreement equals or exceeds \$4.6802, in which case, under applicable Nasdaq rules, the Exchange Cap limitation will not apply to issuances and sales of Class A common stock under the Purchase Agreement, in each case, before we may elect to sell any additional shares of our Class A common stock to the Selling Stockholder under the Purchase Agreement. Any issuance and sale by us under the Purchase Agreement of a substantial amount of shares of Class A common stock in addition to the 12,197,776 shares of Class A common stock being registered for resale by the Selling Stockholder under this prospectus could cause additional substantial dilution to our stockholders.

In addition, we are not required or permitted to issue any shares of Class A common stock under the Purchase Agreement if such issuance would breach our obligations under the rules or regulations of Nasdaq. In addition, the Selling Stockholder will not be required to purchase any shares of our Class A common stock if such sale would result in the Selling Stockholder's beneficial ownership exceeding 4.99% of the then issued and outstanding Class A common stock. Our inability to access a portion or the full amount available under the Purchase Agreement, in the absence of any other financing sources, could have a material adverse effect on our business.

The issuance and sale of our Class A common stock to the Selling Stockholder will cause dilution to our existing stockholders, and the sale of the shares of Class A common stock acquired by the Selling Stockholder, or the perception that such sales may occur, could cause the price of our Class A common stock to fall.

The purchase price for the shares that we may sell to the Selling Stockholder under the Purchase Agreement will fluctuate based on the price of our Class A common stock. Depending on market liquidity at the time, sales of such shares may cause the trading price of our Class A common stock to fall.

If and when we do sell shares to the Selling Stockholder, after the Selling Stockholder has acquired the shares, the Selling Stockholder may resell all, some, or none of those shares at any time or from time to time in its discretion. Therefore, sales to the Selling Stockholder by us could result in substantial dilution to the interests of other holders of our Class A common stock. Additionally, the sale of a substantial number of shares of our Class A common stock to the Selling Stockholder, or the anticipation of such sales, could make it more difficult for us to sell equity or equity-related securities in the future at a time and at a price that we might otherwise wish to effect sales.

Investors who buy shares at different times will likely pay different prices and may experience different levels of dilution.

Pursuant to the Purchase Agreement, we will have discretion, subject to market demand, to vary the timing, prices, and numbers of shares sold to the Selling Stockholder. If and when we do elect to sell shares of our Class A common stock to the Selling Stockholder pursuant to the Purchase Agreement, after the Selling Stockholder has acquired such shares, the Selling Stockholder may resell all, some or none of such shares at any time or from time to time in its discretion and at different prices. As a result, investors who purchase shares from the Selling Stockholder in this offering at different times will likely pay different prices for those shares, and so may experience different levels of dilution and in some cases substantial dilution and different outcomes in their investment results. Investors may experience a decline in the value of the shares they purchase from the Selling Stockholder in this offering as a result of future sales made by us to the Selling Stockholder at prices lower than the prices such investors paid for their shares in this offering. In addition, if we sell a substantial number of shares to the Selling Stockholder under the Purchase Agreement, or if investors expect that we will do so, the actual sales of shares or the mere existence of our arrangement with the Selling Stockholder may make it more difficult for us to sell equity or equity-related securities in the future at a time and at a price that we might otherwise wish to effect such sales.

Our management team will have broad discretion over the use of the net proceeds from our sale of shares of Class A common stock to the Selling Stockholder, if any, and you may not agree with how we use the proceeds and the proceeds may not be invested successfully.

Our management team will have broad discretion as to the use of the net proceeds from our sale of shares of Class A common stock to the Selling Stockholder, if any, and we could use such proceeds for purposes other than those contemplated at the time of commencement of this offering. Accordingly, you will be relying on the judgment of our management team with regard to the use of those net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. It is possible that, pending their use, we may invest those net proceeds in a way that does not yield a favorable, or any, return for us. The failure of our management team to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flows.

- our ability to protect our intellectual property and to develop, maintain and enhance a strong brand;
- our limited operating history by which performance can be gauged;
- our ability to operate and collect digital information on behalf of our clients, which is dependent on the privacy laws of jurisdictions in which our ASRs operate, as well as the corporate policies of our clients, which may limit our ability to fully deploy our technologies in various markets;
- our ability to raise capital, our rolling closes of equity infusions for our financings, and the availability of future financing;
- unpredictable events, such as the COVID-19 pandemic, and associated business disruptions could seriously harm our future revenues and financial condition, delay our operations, increase our costs and expenses, and impact our ability to raise capital;

In particular, the impact of the current COVID-19 pandemic on economic conditions and the physical security industry in general, the continuing conflict in the Ukraine, and our financial position and operating results in particular have been material, are changing rapidly, and cannot be predicted.

THE COMMITTED EQUITY FINANCING

On April 4, 2022, we entered into the Purchase Agreement and the Registration Rights Agreement with the Selling Stockholder. On April 11, 2022, we and the Selling Stockholder entered into an amendment to the Purchase Agreement. Pursuant to the Purchase Agreement, we have the right to sell to the Selling Stockholder up to \$100,000,000 of shares of our Class A common stock, subject to certain limitations and conditions set forth in the Purchase Agreement, from time to time during the term of the Purchase Agreement. Sales of Class A common stock to the Selling Stockholder under the Purchase Agreement, and the timing of any such sales, are solely at our option, and we are under no obligation to sell any securities to the Selling Stockholder under the Purchase Agreement. In accordance with our obligations under the Registration Rights Agreement, we have filed the registration statement, of which this prospectus forms a part, with the SEC to register under the Securities Act the resale by the Selling Stockholder of up to 12,197,776 shares of Class A common stock, consisting of 197,776 Commitment Shares that we issued, or may issue if certain conditions are met, in each case, to the Selling Stockholder as consideration for its commitment to purchase shares of Class A common stock at our election under the Purchase Agreement, and up to 12,000,000 shares of Class A common stock that we may elect, in our sole discretion, to issue and sell to the Selling Stockholder, from time to time from and after the Commencement Date under the Purchase Agreement.

We do not have the right to commence any sales of our Class A common stock to the Selling Stockholder under the Purchase Agreement until the Commencement Date, which is the date on which all of the conditions to the Selling Stockholder's purchase obligations set forth in the Purchase Agreement have been initially satisfied, including that the registration statement, of which this prospectus forms a part, be declared effective by the SEC and the final form of this prospectus is filed with the SEC. From and after the Commencement Date, we will have the right, but not the obligation, from time to time at our sole discretion over the 24-month period commencing on the Commencement Date, to direct the Selling Stockholder to purchase a specified amount of shares of Class A common stock, not to exceed the Maximum Purchase Amount (and subject to certain additional limitations set forth in the Purchase Agreement) by timely delivering a Purchase Notice to the Selling Stockholder between 6:00 a.m. and 9:00 a.m., Eastern time, on any Purchase Date, so long as (i) the closing sale price of our Class A common stock on the trading day immediately prior to such Purchase Date is not less than the Threshold Price and (ii) all shares of Class A common stock subject to all prior Purchases and Intraday Purchases by the Selling Stockholder under the Purchase Agreement have been received by the Selling Stockholder prior to the time such Purchase Notice is delivered by us to the Selling Stockholder.

From and after the date on which the Commencement occurs, subject to the continued satisfaction of conditions set forth in the Purchase Agreement, we will control the timing and amount of any sales of Class A common stock to the Selling Stockholder. Actual sales of shares of our Class A common stock to the Selling Stockholder under the Purchase Agreement will depend on a variety of factors to be determined by us from time to time, including, among other things, market conditions, the trading price of our Class A common stock and determinations by us as to the appropriate sources of funding for our business and its operations.

Under the applicable Nasdaq rules, in no event may we issue to the Selling Stockholder under the Purchase Agreement more than the Exchange Cap of 6,847,787 shares of our Class A common stock, which number of shares is equal to 19.99% of the sum of (i) the shares of our Class A common stock and (ii) the shares of our Class B common stock, in each case, issued and outstanding immediately prior to the execution of the Purchase Agreement, unless (a) we obtain stockholder approval to issue shares of Class A common stock in excess of the Exchange Cap in accordance with applicable Nasdaq rules, or (b) the average price per share paid by the Selling Stockholder for all of the shares of Class A common stock that we direct the Selling Stockholder to purchase from us pursuant to the Purchase Agreement, if any, equals or exceeds \$4.6802 per share (representing the lower of the official closing price of our Class A common stock on Nasdaq on the trading day immediately preceding the date of the Purchase Agreement and the average official closing price of our Class A common stock on Nasdaq for the five consecutive trading days ending on the trading day immediately preceding the date of the Purchase Agreement, as adjusted in accordance with applicable Nasdaq rules). Moreover, we may not issue or sell any shares of Class A common stock to the Selling Stockholder under the Purchase Agreement which, when aggregated with all other shares of Class A common stock beneficially owned by the Selling Stockholder and its affiliates (as calculated pursuant to Section 13(d) of the Exchange Act, and Rule 13d-3 promulgated thereunder), would result in the Selling Stockholder beneficially owning shares of our Class A common stock in excess of the Beneficial Ownership Cap.

Neither we nor the Selling Stockholder may assign or transfer any of our respective rights and obligations under the Purchase Agreement or the Registration Rights Agreement.

The net proceeds under the Purchase Agreement to us will depend on the frequency and prices at which we sell shares of our Class A common stock to the Selling Stockholder. We expect that any proceeds received by us from such sales to the Selling Stockholder will be used to fund new technology development, new machines-in-network, general corporate and business purposes, and potential acquisitions.

As consideration for the Selling Stockholder's commitment to purchase shares of Class A common stock at our direction upon the terms and subject to the conditions set forth in the Purchase Agreement, upon execution of the Purchase Agreement, we issued 98,888 Initial Commitment Shares to the Selling Stockholder. In addition, (i) upon our receipt of total aggregate gross cash proceeds equal to \$25,000,000 as payment by the Selling Stockholder for all shares of our Class A common stock purchased in all Purchases and Intraday Purchases (as applicable) effected by us pursuant to the Purchase Agreement, we will issue 59,333 additional shares of our Class A common stock to the Selling Stockholder as Additional Commitment Shares, and (ii) upon our receipt of total aggregate gross cash proceeds equal to \$50,000,000 from the Selling Stockholder under the Purchase Agreement, we will issue an additional 39,555 shares of our Class A common stock to the Selling Stockholder as Additional Commitment Shares, totaling 98,888 Additional Commitment Shares (in addition to the 98,888 Initial Commitment Shares we issued to the Selling Stockholder upon execution of the Purchase Agreement).

The Purchase Agreement and the Registration Rights Agreement contain customary representations, warranties, conditions and indemnification obligations of the parties. The representations, warranties and covenants contained in such agreements were made only for purposes of such agreements and as of specific dates, were solely for the benefit of the parties to such agreements and may be subject to limitations agreed upon by the contracting parties. Copies of the agreements have been filed as exhibits to the registration statement, of which this prospectus forms a part, and are available electronically on the website of the SEC at www.sec.gov.

Purchase of Class A Common Stock Under the Purchase Agreement

Purchases

From and after the date on which the Commencement occurs, subject to the continued satisfaction of conditions set forth in the Purchase Agreement, we will have the right, but not the obligation, from time to time at our sole discretion over the 24-month period commencing on the Commencement Date, to direct the Selling Stockholder to purchase up to a specified maximum amount of shares of Class A common stock as set forth in the Purchase Agreement by timely delivering a Purchase Notice to the Selling Stockholder between 6:00 a.m. and 9:00 a.m., Eastern time, on a Purchase Date, so long as:

- the closing sale price of our Class A common stock on the trading day immediately prior to such Purchase Date is not less than the Threshold Price (subject to adjustment as set forth in the Purchase Agreement);
- all shares of Class A common stock subject to all prior Purchases and all prior Intraday Purchases by the Selling Stockholder under the Purchase Agreement have been received by the Selling Stockholder in accordance with the Purchase Agreement.

The maximum number of shares of Class A common stock that the Selling Stockholder is required to purchase in any single Purchase under the Purchase Agreement will not exceed the lesser of (i) 33.0% of the Purchase Volume Reference Amount applicable to such Purchase and (ii) 20% of the volume of the total aggregate number (or "volume") of shares of our Class A common stock traded on Nasdaq during the applicable Purchase Valuation Period.

The Purchase Volume Reference Amount is defined as such number of shares of our Class A common stock equal to the quotient obtained by dividing:

- the total aggregate volume of shares of Class A common stock traded during the full regular trading sessions on Nasdaq during the 10 consecutive trading day period ending on (and including) the trading day immediately preceding the Purchase Date for such Purchase, by
- 10.

The per share purchase price for the Purchase Share Amount that the Selling Stockholder is required to purchase in a Purchase effected by us pursuant to the Purchase Agreement, if any, will be determined by reference to the VWAP of our Class A common stock during the full primary (or “regular”) trading session on Nasdaq on the applicable Purchase Date, calculated in accordance with the Purchase Agreement, or, if either (i) the total aggregate volume of shares of our Class A common stock traded on Nasdaq reaches a threshold amount equal to the Purchase Volume Maximum (calculated in accordance with the Purchase Agreement) prior to the official close of the regular trading session on Nasdaq on such Purchase Date, or (ii) the trading price of a share of our Class A common stock on Nasdaq falls below the applicable Minimum Price Threshold specified by us in the Purchase Notice for such Purchase, then the VWAP will be calculated only for the Purchase Valuation Period, less a fixed 3.0% discount to the VWAP for such Purchase Valuation Period.

Intraday Purchases

In addition to the regular Purchases described above, if either (i) we do not effect a regular Purchase on a trading day that we otherwise could have selected as a Purchase Date for a regular Purchase pursuant to the Purchase Agreement (or we fail to timely deliver to the Selling Stockholder a Purchase Notice for a regular Purchase on such trading day) or (ii) we have timely delivered a Purchase Notice for a regular Purchase on a Purchase Date, and the Purchase Valuation Period for such Purchase has ended prior to 1:30 p.m., Eastern time, on such Purchase Date, then, in either case, we will also have the right, but not the obligation, subject to the continued satisfaction of conditions set forth in the Purchase Agreement, to direct the Selling Stockholder to purchase, on such same Purchase Date, an additional specified amount of our Class A common stock, not to exceed the Intraday Purchase Volume Maximum, by the delivery to the Selling Stockholder of an Intraday Purchase Notice, after 10:00 a.m., Eastern time (and after the Purchase Valuation Period for any prior regular Purchase (if any) and the Intraday Purchase Valuation Period(s) for the most recent prior Intraday Purchase effected on the same Purchase Date (if any) has ended), and prior to 1:30 p.m., Eastern time, on such Purchase Date, so long as, (i) the closing sale price of our Class A common stock on the trading day immediately prior to such Purchase Date is not less than the Threshold Price and (ii) all shares of our Class A common stock subject to all prior Purchases and all prior Intraday Purchases by the Selling Stockholder under the Purchase Agreement have been received by the Selling Stockholder prior to the time such Intraday Purchase Notice is delivered by us to the Selling Stockholder

The per share purchase price for the shares of our Class A common stock that we elect to sell to the Selling Stockholder in an Intraday Purchase pursuant to the Purchase Agreement, if any, will be calculated in the same manner as in the case of a regular Purchase, provided that the VWAP for such Intraday Purchase will be measured during the portion of the normal trading hours on Nasdaq on the applicable Purchase Date that will begin 30 minutes after the latest of (i) the time that the applicable Intraday Purchase Notice is timely received by the Selling Stockholder, (ii) the time that the Purchase Valuation Period for any prior regular Purchase effected on the same Purchase Date (if any) has ended and (iii) the time that the Intraday Purchase Valuation Period for the most recent prior Intraday Purchase effected on the same Purchase Date (if any) has ended, and ending at the earliest of (x) the official close of the regular trading session on Nasdaq on such Purchase Date, (y) such time that the total aggregate volume of shares of our Class A common stock traded on Nasdaq reaches the Intraday Purchase Volume Maximum, and (z) such time that the trading price of a share of our Class A common stock on Nasdaq falls below the applicable Intraday Minimum Price Threshold (as applicable), less a fixed 3.0% discount to the VWAP for such Intraday Purchase Valuation Period.

We may, in our sole discretion, submit multiple Intraday Purchase Notices on the same Purchase Date on which we have properly submitted a Purchase Notice for a Purchase and one or more Intraday Purchase Notices for an Intraday Purchase, with respect to which the Purchase Valuation Period and the Intraday Purchase Valuation Period(s), respectively, have each ended prior to 1:30 p.m., Eastern time, on such Purchase Date (again, provided all shares of Class A common stock subject to all prior Purchases and Intraday Purchases effected by us under the Purchase Agreement theretofore required to have been received by the Selling Stockholder electronically on the applicable settlement date therefor have been so received by the Selling Stockholder in accordance with the Purchase Agreement).

The terms and limitations of such multiple Intraday Purchases effected on the same Purchase Date will be the same as those for a prior Intraday Purchase on the same Purchase Date, and the per share purchase price for the shares of Class A common stock that we elect to sell to the Selling Stockholder in such multiple Intraday Purchases pursuant to the Purchase Agreement, if any, will be calculated in the same manner as in the case of a prior Intraday Purchase on the same Purchase Date, with the exception that the Intraday Purchase Valuation Period(s) for each will begin and end at different times and may vary in length of time during normal trading hours on the applicable Purchase Date, as determined in accordance with the Purchase Agreement.

In the case of the Purchases and Intraday Purchases, the purchase price per share will be equitably adjusted for any reorganization, recapitalization, non-cash dividend, stock split, reverse stock split or other similar transaction occurring during the business days used to compute the purchase price.

At or prior to 5:30 p.m., Eastern time, on the applicable Purchase Date for a Purchase, the Selling Stockholder will provide us with a written confirmation for such Purchase and Intraday Purchase, if applicable, setting forth the applicable purchase price (both on a per share basis and the total aggregate purchase price) to be paid by the Selling Stockholder for the shares of Class A common stock purchased by the Selling Stockholder in such Purchase and Intraday Purchase, if applicable.

The payment for, against delivery of, shares of Class A common stock purchased by the Selling Stockholder in a Purchase and any Intraday Purchase under the Purchase Agreement will be fully settled within two trading days immediately following the applicable Purchase Date for such Purchase and Intraday Purchase, as set forth in the Purchase Agreement.

- the SEC shall not have issued any stop order suspending the effectiveness of the registration statement, of which this prospectus forms a part (or any one or more additional registration statements filed with the SEC that include shares of Class A common stock that may be issued and sold by the Company to the Selling Stockholder under the Purchase Agreement), or prohibiting or suspending the use of this prospectus (or the prospectus included in any one or more additional registration statements filed with the SEC under the Registration Rights Agreement), and the absence of any suspension of qualification or exemption from qualification of the Class A common stock for offering or sale in any jurisdiction;
- there shall not have occurred any event and there shall not exist any condition or state of facts, which makes any statement of a material fact made in the registration statement that includes this prospectus (or in any one or more additional registration statements filed with the SEC that include shares of Class A common stock that may be issued and sold by the Company to the Selling Stockholder under the Purchase Agreement) untrue or which requires the making of any additions to or changes to the statements contained therein in order to state a material fact required by the Securities Act to be stated therein or necessary in order to make the statements then made therein (in the case of this prospectus or the prospectus included in any one or more additional registration statements filed with the SEC under the Registration Rights Agreement, in the light of the circumstances under which they were made) not misleading;

- this prospectus, in final form, shall have been filed with the SEC under the Securities Act prior to Commencement, and all reports, schedules, registrations, forms, statements, information and other documents required to have been filed by the Company with the SEC pursuant to the reporting requirements of the Exchange Act shall have been filed with the SEC;
- trading in the Class A common stock shall not have been suspended by the SEC or Nasdaq, the Company shall not have received any final and non-appealable notice that the listing or quotation of the Class A common stock on Nasdaq shall be terminated on a date certain (unless, prior to such date, the Class A common stock is listed or quoted on any other Eligible Market, as such term is defined in the Purchase Agreement), and there shall be no suspension of, or restriction on, accepting additional deposits of the Class A common stock, electronic trading or book-entry services by The Depository Trust Company with respect to the Class A common stock;
- the Company shall have complied with all applicable federal, state and local governmental laws, rules, regulations and ordinances in connection with the execution, delivery and performance of the Purchase Agreement and the Registration Rights Agreement;
- the absence of any statute, regulation, order, decree, writ, ruling or injunction by any court or governmental authority of competent jurisdiction which prohibits the consummation of or that would materially modify or delay any of the transactions contemplated by the Purchase Agreement or the Registration Rights Agreement;
- the absence of any action, suit or proceeding before any arbitrator or any court or governmental authority seeking to restrain, prevent or change the transactions contemplated by the Purchase Agreement or the Registration Rights Agreement, or seeking material damages in connection with such transactions;
- all of the shares of Class A common stock that may be issued pursuant to the Purchase Agreement shall have been approved for listing or quotation on Nasdaq (or if the Class A common stock is not then listed on Nasdaq, on any Eligible Market), subject only to notice of issuance;
- no condition, occurrence, state of facts or event constituting a Material Adverse Effect (as such term is defined in the Purchase Agreement) shall have occurred and be continuing;
- the absence of any bankruptcy proceeding against the Company commenced by a third party, and the Company shall not have commenced a voluntary bankruptcy proceeding, consented to the entry of an order for relief against it in an involuntary bankruptcy case, consented to the appointment of a custodian of the Company or for all or substantially all of its property in any bankruptcy proceeding, or made a general assignment for the benefit of its creditors; and
- the receipt by the Selling Stockholder of the legal opinions and negative assurances, and bring-down legal opinions and negative assurances as required under the Purchase Agreement.

Termination of the Purchase Agreement

Unless earlier terminated as provided in the Purchase Agreement, the Purchase Agreement will terminate automatically on the earliest to occur of:

- the first day of the month next following the 24-month anniversary of the Commencement Date;
- the date on which the Selling Stockholder shall have purchased from us under the Purchase Agreement shares of Class A common stock for an aggregate gross purchase price of \$100,000,000;
- the date on which the Class A common stock shall have failed to be listed or quoted on Nasdaq or any other Eligible Market;
- the 30th trading day after the date on which a voluntary or involuntary bankruptcy proceeding involving us has been commenced that is not discharged or dismissed prior to such trading day; and

- the date on which a bankruptcy custodian is appointed for all or substantially all of our property or we make a general assignment for the benefit of creditors.

We have the right to terminate the Purchase Agreement at any time after Commencement, at no cost or penalty, upon five trading days' prior written notice to the Selling Stockholder. We and the Selling Stockholder may also agree to terminate the Purchase Agreement by mutual written consent. In any case, no termination of the Purchase Agreement will be effective during the pendency of any Purchase that has not then fully settled in accordance with the Purchase Agreement.

The Selling Stockholder also has the right to terminate the Purchase Agreement upon five trading days' prior written notice to us, but only upon the occurrence of certain events, including:

- the occurrence of a Material Adverse Effect;
- the occurrence of a Fundamental Transaction (as such term defined in the Purchase Agreement) involving us;
- if we are in breach or default in any material respect of any of our covenants and agreements in the Purchase Agreement or in the Registration Rights Agreement, and, if such breach or default is capable of being cured, such breach or default is not cured within 10 trading days after notice of such breach or default is delivered to us;
- the effectiveness of the registration statement, of which this prospectus forms a part, or any additional registration statement we file with the SEC pursuant to the Registration Rights Agreement lapses for any reason (including the issuance of a stop order by the SEC), or this prospectus or the prospectus included in any additional registration statement we file with the SEC pursuant to the Registration Rights Agreement otherwise becomes unavailable to the Selling Stockholder for the resale of all of the shares of Class A common stock included therein, and such lapse or unavailability continues for a period of 20 consecutive trading days or for more than an aggregate of 60 trading days in any 365-day period, other than due to acts of the Selling Stockholder; or
- trading in the Class A common stock on Nasdaq (or if the Class A common stock is then listed on an Eligible Market, trading in the Class A common stock on such Eligible Market) has been suspended for a period of three consecutive trading days.

No termination of the Purchase Agreement by us or by the Selling Stockholder will become effective prior to the third trading day immediately following the date on which any pending Purchase has been fully settled in accordance with the terms and conditions of the Purchase Agreement, and will not affect any of our respective rights and obligations under the Purchase Agreement with respect to any pending Purchase, and both we and the Selling Stockholder have agreed to complete our respective obligations with respect to any such pending Purchase under the Purchase Agreement. Furthermore, no termination of the Purchase Agreement will affect the Registration Rights Agreement, which will survive any termination of the Purchase Agreement.

No Short-Selling or Hedging by the Selling Stockholder

The Selling Stockholder has agreed that none of the Selling Stockholder, its sole member, any of their respective officers, or any entity managed or controlled by the Selling Stockholder or its sole member will engage in or effect, directly or indirectly, for its own account or for the account of any other of such persons or entities, any (i) "short sale" (as such term is defined in Rule 200 of Regulation SHO of the Exchange Act) of our Class A common stock or (ii) hedging transaction, which establishes a net short position with respect to our Class A common stock, during the term of the Purchase Agreement.

Prohibition of Other Similar Continuous Equity Offerings

Subject to specified exceptions included in the Purchase Agreement, we are prohibited (with certain specified exceptions) from effecting or entering into an agreement to effect certain "Variable Rate Transactions" (as defined in the Purchase Agreement), which include issuances of shares of our Class A common stock or securities exercisable, exchangeable or convertible into shares of our Class A common stock issued or issuable at a future-determined price or a price that varies or floats based on the market price of our Class A common stock, including an "equity line" with a third party, or any similar continuous offering of our equity securities.

Effect of Sales of our Class A Common Stock under the Purchase Agreement on our Stockholders

All shares of Class A common stock that may be issued or sold by us to the Selling Stockholder under the Purchase Agreement that are being registered under the Securities Act for resale by the Selling Stockholder in this offering are expected to be freely tradable. The shares of Class A common stock being registered for resale in this offering may be issued and sold by us to the Selling Stockholder from time to time at our discretion over a period of up to 24 months commencing on the Commencement Date. The resale by the Selling Stockholder of a significant amount of shares registered for resale in this offering at any given time, or the perception that these sales may occur, could cause the market price of our Class A common stock to decline and to be highly volatile. Sales of our Class A common stock, if any, to the Selling Stockholder under the Purchase Agreement will depend upon market conditions and other factors to be determined by us. We may ultimately decide to sell to the Selling Stockholder all, some or none of the shares of our Class A common stock that may be available for us to sell to the Selling Stockholder pursuant to the Purchase Agreement.

If and when we do elect to sell shares of our Class A common stock to the Selling Stockholder pursuant to the Purchase Agreement, after the Selling Stockholder has acquired such shares, the Selling Stockholder may resell all, some or none of such shares at any time or from time to time in its discretion and at different prices. As a result, investors who purchase shares from the Selling Stockholder in this offering at different times will likely pay different prices for those shares, and so may experience different levels of dilution and in some cases substantial dilution and different outcomes in their investment results. Investors may experience a decline in the value of the shares they purchase from the Selling Stockholder in this offering as a result of future sales made by us to the Selling Stockholder at prices lower than the prices such investors paid for their shares in this offering. In addition, if we sell a substantial number of shares to the Selling Stockholder under the Purchase Agreement, or if investors expect that we will do so, the actual sales of shares or the mere existence of our arrangement with the Selling Stockholder may make it more difficult for us to sell equity or equity-related securities in the future at a time and at a price that we might otherwise wish to effect such sales. See “Risk Factors—Risks Related to the Offering—The issuance and sale of our Class A common stock to the Selling Stockholder will cause dilution to our existing stockholders, and the sale of the shares of Class A common stock acquired by the Selling Stockholder, or the perception that such sales may occur, could cause the price of our Class A common stock to fall” and see “Risk Factors—Risks Related to the Offering—Investors who buy shares at different times will likely pay different prices and may experience different levels of dilution.”

Because the purchase price per share to be paid by the Selling Stockholder for the shares of Class A common stock that we may elect to sell to the Selling Stockholder under the Purchase Agreement, if any, will fluctuate based on the market prices of our Class A common stock during the applicable Purchase Valuation Period for each Purchase made pursuant to the Purchase Agreement, if any, as of the date of this prospectus it is not possible for us to predict the number of shares of Class A common stock that we will sell to the Selling Stockholder under the Purchase Agreement, the actual purchase price per share to be paid by the Selling Stockholder for those shares, or the actual gross proceeds to be raised by us from those sales, if any. As of March 31, 2022, there were 23,877,817 shares of our Class A common stock outstanding, all of which were held by non-affiliates, and 10,378,251 shares of our Class B common stock outstanding of which 378,251 shares were held by non-affiliates. If all of the 12,197,776 shares of Class A common stock offered by the Selling Stockholder for resale under this prospectus were issued and outstanding as of the date hereof (without taking into account the 19.99% Exchange Cap limitation), such shares would represent approximately 33.8% of the total number of shares of our Class A common stock outstanding, approximately 33.8% of the total number of outstanding shares of Class A common stock held by non-affiliates, and approximately 26.3% of the total combined number of shares of our Class A common stock and Class B common stock outstanding, in each case as of March 31, 2022. See “Risk Factors—Risks Related to the Offering—It is not possible to predict the actual number of shares we will sell under the Purchase Agreement to the Selling Stockholder, or the actual gross proceeds resulting from those sales. Further, we may not have access to the full amount available under the Purchase Agreement with the Selling Stockholder.”

Although the Purchase Agreement provides that we may, in our discretion, from time to time after the date of this prospectus and during the term of the Purchase Agreement, direct the Selling Stockholder to purchase shares of our Class A common stock from us in one or more Purchases under the Purchase Agreement, for a maximum aggregate purchase price of up to \$100,000,000, only 12,197,776 shares of Class A common stock (197,776 of which represent the Commitment Shares we issued to the Selling Stockholder upon signing the Purchase Agreement, or may issue if certain conditions are met, in each case, as payment of a commitment fee for the Selling Stockholder’s obligation to purchase shares of our Class A common stock under the Purchase Agreement) are being registered for resale under the registration statement, of which this prospectus forms a part. Assuming all of such 12,197,776 shares were sold to the Selling Stockholder at the fixed 3.0% discount to the per share price of \$4.545 (which represents the official closing price of our Class A common stock on Nasdaq on the trading day immediately preceding the date of the Purchase Agreement, as adjusted in accordance with applicable Nasdaq rules), such number of shares would be insufficient to enable us to receive aggregate gross proceeds from the sale of such shares to the Selling Stockholder equal to the Selling Stockholder’s \$100,000,000 total aggregate purchase commitment under the

Purchase Agreement. However, because the market prices of our Class A common stock may fluctuate from time to time after the date of this prospectus and, as a result, the actual purchase prices to be paid by the Selling Stockholder for shares of our Class A common stock that we direct it to purchase under the Purchase Agreement, if any, also may fluctuate because they will be based on such fluctuating market prices of our Class A common stock, it is possible that we may need to issue and sell more than the number of shares being registered for resale under this prospectus to the Selling Stockholder under the Purchase Agreement in order to receive aggregate gross proceeds equal to the Selling Stockholder’s \$100,000,000 total aggregate purchase commitment under the Purchase Agreement.

If it becomes necessary for us to issue and sell to the Selling Stockholder under the Purchase Agreement more shares than are being registered for resale under this prospectus in order to receive aggregate gross proceeds equal to \$100,000,000 under the Purchase Agreement, we must first (i) obtain stockholder approval to issue shares of Class A common stock in excess of the Exchange Cap under the Purchase Agreement in accordance with applicable Nasdaq rules and (ii) file with the SEC one or more additional registration statements to register under the Securities Act the resale by the Selling Stockholder of any such additional shares of our Class A common stock we wish to sell from time to time under the Purchase Agreement, which the SEC must declare effective, in each case, before we may elect to sell any additional shares of our Class A common stock to the Selling Stockholder under the Purchase Agreement. The number of shares of our Class A common stock ultimately offered for sale by the Selling Stockholder is dependent upon the number of shares of Class A common stock, if any, we ultimately sell to the Selling Stockholder under the Purchase Agreement.

The issuance of our Class A common stock to the Selling Stockholder pursuant to the Purchase Agreement will not affect the rights or privileges of our existing stockholders, except that the economic and voting interests of each of our existing stockholders will be diluted. Although the number of shares of our Class A common stock that our existing stockholders own will not decrease, the shares of our Class A common stock owned by our existing stockholders will represent a smaller percentage of our total outstanding shares of our Class A common stock after any such issuance.

The following table sets forth the amount of gross proceeds we would receive from the Selling Stockholder from our sale of shares of Class A common stock to the Selling Stockholder under the Purchase Agreement at varying purchase prices:

| Assumed Average Purchase Price Per Share | Number of Registered Shares of Class A Common Stock to be Issued if Full Purchase(1)(2) | Percentage of Outstanding Shares of Common Stock After Giving Effect to the Issuance to the Selling Stockholder(3) | Gross Proceeds from the Sale of Shares of Class A Common Stock to the Selling Stockholder Under the Purchase Agreement |
|---|--|---|---|
| \$3.0000 | 6,650,011 | 16.2% | \$19,950,033 |
| \$3.9900(4) | 6,650,011 | 16.2% | \$26,533,544 |
| \$4.0000 | 6,650,011 | 16.2% | \$26,600,044 |
| \$4.6802(5) | 12,000,000 | 25.9% | \$56,162,400 |
| \$5.0000 | 12,000,000 | 25.9% | \$60,000,000 |
| \$6.0000 | 12,000,000 | 25.9% | \$72,000,000 |
| \$7.0000 | 12,000,000 | 25.9% | \$84,000,000 |
| \$8.0000 | 12,000,000 | 25.9% | \$96,000,000 |
| \$9.0000 | 12,000,000 | 25.9% | \$100,000,000 |

(1) Although the Purchase Agreement provides that we may sell up to \$100,000,000 of our Class A common stock to the Selling Stockholder, we are only registering 12,000,000 shares of Class A common stock that we ultimately may sell to the Selling Stockholder under the Purchase Agreement (excluding the 197,776 Commitment Shares). We will not issue more than an aggregate of 6,847,787 shares of Class A common stock (the Exchange Cap) unless otherwise approved by our stockholders or if the average price per share paid by the Selling Stockholder for all of the shares of Class A common stock that we direct the Selling Stockholder to purchase from us pursuant to the Purchase Agreement, if any, equals or exceeds \$4.6802 per share (the “Base Price”). The number of registered shares to be issued as set forth in this column gives effect to (i) the Exchange Cap, as applicable, and (ii) the Total Commitment amount of \$100,000,000, as applicable, without regard for the Beneficial Ownership Cap.

(2) The number of shares of Class A common stock offered by this prospectus may not cover all the shares we ultimately sell to the Selling Stockholder under the Purchase Agreement, depending on the purchase price per share. We have included in this column only those shares being offered for resale by the Selling Stockholder under this prospectus (excluding the 197,776 Commitment Shares), without regard for the Beneficial Ownership Cap. The assumed average purchase prices are solely for illustration and are not intended to be estimates or predictions of future stock performance.

(3) The denominator is based on 23,976,705 shares of Class A common stock and 10,378,251 shares of Class B common stock outstanding, in each case, as of March 31, 2022 (which, for these purposes, includes the 98,888 Initial Commitment Shares we issued to the Selling Stockholder on April 4, 2022), adjusted to include the issuance of the number of shares set forth in the second column that we would have sold to the Selling Stockholder, assuming the average purchase price in the first column. The numerator is based on the number of shares of Class A common stock set forth in the second column.

(4) The closing sale price of our Class A common stock on Nasdaq on May 10, 2022.

(5) Base Price.

USE OF PROCEEDS

This prospectus relates to shares of our Class A common stock that may be offered and resold from time to time by the Selling Stockholder. All of the Class A common stock offered by the Selling Stockholder pursuant to this prospectus will be resold by the Selling Stockholder for its own account. We will not receive any of the proceeds from these sales. We may receive up to \$100,000,000 aggregate gross proceeds under the Purchase Agreement from any sales we make to the Selling Stockholder pursuant to the Purchase Agreement. The net proceeds from sales, if any, under the Purchase Agreement, will depend on the frequency and prices at which we sell shares of Class A common stock to the Selling Stockholder after the date of this prospectus. See “Plan of Distribution.”

We intend that any funds we receive from our sale of shares to the Selling Stockholder under the Purchase Agreement to fund new technology development, new machines-in-network, general corporate and business purposes, and potential acquisitions. As of the date of this prospectus, we cannot specify with certainty all of the particular uses of the proceeds from such offering. Accordingly, we will retain broad discretion over the use of such proceeds.

The Selling Stockholder will pay any underwriting discounts and commissions and expenses incurred by it for brokerage, accounting, tax or legal services or any other expenses incurred by it in disposing of the Class A common stock. We will bear all other costs, fees and expenses incurred in effecting the registration of the Class A common stock covered by this prospectus, including, without limitation, all registration and filing fees and fees and expenses of our counsel and our accountants.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our capital stock. We currently intend to retain future earnings for use in operating and expanding our business, and we do not anticipate paying any cash dividends in the reasonably foreseeable future. Any future determination to declare cash dividends will be made at the discretion of our board of directors, subject to applicable laws, and will depend on a number of factors, including our financial condition, results of operations, capital requirements, contractual restrictions, such as the terms of the agreements governing our indebtedness, general business conditions, and other factors that our board of directors may deem relevant.

Family Relationships

There are no family relationships among any of our directors and executive officers, except that William Santana Li, our Chairman and CEO, is married to Mercedes Soria, our Chief Intelligence Officer.

Composition of our Board of Directors

Our board of directors currently consists of seven directors and is not classified. All directors are elected at each annual meeting of stockholders and hold office until such director's successor is elected and qualified or until such director's earlier death, resignation or removal.

When considering whether directors have the experience, qualifications, attributes or skills, taken as a whole, to enable our board of directors to satisfy its oversight responsibilities effectively in light of our business and structure, the board of directors focuses primarily on each person's background and experience as reflected in the information discussed in each of the directors' individual biographies set forth above. We believe that our directors provide an appropriate mix of experience and skills relevant to the size and nature of our business.

Board Leadership Structure and Role in Risk Oversight

Our board of directors does not have a policy regarding separation of the roles of Chief Executive Officer and Chairman of the board of directors. The board of directors believes it is in our best interests to make that determination based on circumstances from time to time. Currently, our Chief Executive Officer serves as the Chairman of the board of directors, and all of our other directors and non-employee independent directors.

We believe this leadership structure benefits us because a combined Chief Executive Officer and Chairman role helps provide strong, unified leadership for our management team and board of directors. Furthermore, our customers, suppliers and other business partners have always viewed our Chief Executive Officer and Chairman as a visionary leader in our industry, and we believe that having a single leader is good for our business. Accordingly, we believe a combined Chief Executive Officer and Chairman position is the best governance model for our company and our stockholders at this time. The board of directors has not specifically designated any director as a lead independent director.

Our board of directors believes that this leadership structure, combined with our corporate governance policies and processes, creates an appropriate balance between strong and consistent leadership and independent oversight of our business. The Chairman chairs the meetings of our board of directors and stockholders, with input from the non-employee independent directors, and as such, our board of directors believes that a person with comprehensive knowledge of our Company is in the best position to serve such role.

Our board of directors believes that our current leadership structure and the composition of our board of directors protect stockholder interests and provide adequate independent oversight, while also providing outstanding leadership and direction for our board of directors and management. Each of our other directors is "independent" under Nasdaq standards, as more fully described herein. The independent directors meet in executive sessions, without management present, during each regularly scheduled board of directors meeting and are very active in the oversight of our Company. In addition, our board of directors and each committee of our board of directors has complete and open access to any member of management and the authority to retain independent legal, financial and other advisors as they deem appropriate.

Our board of directors believes its administration of its risk oversight function has not affected its leadership structure. Risk is inherent with every business, and how well a business manages risk can ultimately determine its success. We face a number of risks, including those described under "Item 1A. Risk Factors" in our [2021 Annual Report](#), which is incorporated by reference herein, and in other filings that we periodically make with the SEC. Our board of directors is actively involved in oversight of risks that could affect us. This oversight is conducted primarily by our full board of directors, which has responsibility for general oversight of risks.

Our board of directors satisfies this responsibility through full reports by each committee chair regarding the committee's considerations and actions, as well as through regular reports directly from officers responsible for oversight of particular risks within our Company. Our audit committee oversees risk management activities related to financial controls and legal and compliance risks. Our compensation committee oversees risk management activities relating to our compensation policies and practices, and our independent directors as a whole oversees risk management activities relating to board of directors' composition and management succession planning. In addition, members of our senior management team attend our quarterly board meetings and are available to address any questions or concerns raised by the board on risk-management and any other matters. Our board of directors believes that full and open communication between management and the board of directors is essential for effective risk management and oversight.

Director Independence

Nasdaq listing rules require that a majority of the board of directors be comprised of independent directors. The board of directors has determined that Kristi Ross, Linda Keene Solomon, Jackie Hernandez Fentanez, Patty Watkins, Trish Howell, and Suzanne Muchin is each an “independent director” as defined under the applicable Nasdaq rules and SEC rules and regulations. Mr. Li is not independent due to his service as a current executive officer of the Company. The board of directors makes a determination regarding the independence of each director annually based on relevant facts and circumstances. Applying the standards and independence criteria defined by the Nasdaq listing standards, the board of directors has made a determination as to each independent director that no relationships exist which, in the opinion of the board of directors, would interfere with the exercise of her independent judgment in carrying out the responsibilities of a director.

Board Committees

Our board of directors has established an audit committee and a compensation committee. Our board of directors may establish other committees to facilitate the management of our business from time to time. Our board of directors delegates various responsibilities and authority to committees as generally described below. The committees regularly report on their activities and actions to the full board of directors. Our board of directors does not have a standing nominating committee. In accordance with Nasdaq rules, director nominees are selected or recommended for selection by independent directors constituting a majority of the board of directors’ independent directors in a vote in which only independent directors participate.

Each of the committees operates under its own written charter as adopted by our board of directors, each of which is available on our website, www.ir.knightscope.com/corporate-governance/governance-overview. The information contained on, or accessible through, our website is not part of, or incorporated by reference in, the registration statement, of which this prospectus forms a part.

Audit Committee

The audit committee members are Kristi Ross, Linda Keene Solomon, and Trish Howell. Ms. Ross serves as chairperson. Our board of directors has determined that the proposed chairperson of the audit committee can read and understand and will ensure that each member seated in the future will be able to, read and understand fundamental financial statements and qualifies as an audit committee financial expert within the meaning of Commission regulations and meets the financial sophistication requirements of the Nasdaq Global Market.

Our board of directors has determined that each of the directors serving on our audit committee is independent within the meaning of applicable Nasdaq rules and Rule 10A-3 under the Exchange Act. In addition, our board of directors has determined that Ms. Ross qualifies as an “audit committee financial expert” within the meaning of SEC regulations and applicable Nasdaq rules. In making this determination, our board of directors has considered the formal education and nature and scope of her previous experience.

Our audit committee, among other things, assists our board of directors with its oversight of the integrity of our financial statements; our compliance with legal and regulatory requirements; the qualifications, independence, and performance of the independent registered public accounting firm; and the design and implementation of our risk assessment and risk management. Among other things, our audit committee is responsible for reviewing and discussing with our management the adequacy and effectiveness of our disclosure controls and procedures. The audit committee also discusses with our management and independent registered public accounting firm the annual audit plan and scope of audit activities, scope and timing of the annual audit of our financial statements, and the results of the audit, quarterly reviews of our financial statements and, as appropriate, initiates inquiries into certain aspects of our financial affairs. Our audit committee is responsible for establishing and overseeing procedures for the receipt, retention, and treatment of any complaints regarding accounting, internal accounting controls or auditing matters, as well as for the confidential and anonymous submissions by our employees of concerns regarding questionable accounting or auditing matters. In addition, our audit committee has direct responsibility for the appointment, compensation, retention, and oversight of the work of our independent registered public accounting firm. Our audit committee has sole authority to approve the hiring and discharging of our independent registered public accounting firm, all audit engagement terms and fees, and all permissible non-audit engagements with the independent auditor. Our audit committee reviews and oversees all related person transactions in accordance with our policies and procedures.

Compensation Committee

The Company established a compensation committee whose members are Jackie Hernandez Fentanez and Patty Watkins. Ms. Hernandez Fentanez serves as the chairperson. Our board of directors has determined that each of the directors serving on our compensation committee is independent within the meaning of applicable Nasdaq rules and SEC rules and regulations for purposes of membership on the compensation committee.

Our compensation committee, among other things, assists our board of directors with its oversight of the forms and amount of compensation for our executive officers (including officers reporting under Section 16 of the Exchange Act), the administration of our equity and non-equity incentive plans for employees and other service providers and certain other matters related to our compensation programs. Our compensation committee, among other responsibilities, evaluates the performance of our Chief Executive Officer and, in consultation with him, evaluates the performance of our other executive officers (including officers reporting under Section 16 of the Exchange Act).

Risk Considerations in our Compensation Program

The compensation committee conducted an assessment of our compensation policies and practices for our employees and concluded that these policies and practices are not reasonably likely to have a material adverse effect on our Company.

Compensation Committee Interlocks and Insider Participation

None of our officers currently serves, and in the past year none of them has served, (i) as a member of the compensation committee or board of directors of another entity that has one or more officers serving on our compensation committee, or (ii) as a member of the compensation committee of another entity, one of whose executive officers served on our Board.

Codes of Conduct

We have a written code of conduct in place that applies to all our employees and directors, including our principal executive officer and principal financial officer. A copy of our code of conduct is available on our website at www.ir.knightscope.com/corporate-governance/governance-overview. We are required to disclose certain changes to, or waivers from, that code for our senior financial officers. We intend to use our website as a method of disseminating any change to, or waiver from, our code of conduct as permitted by applicable SEC rules.

Our audit committee reviews and oversees all related person transactions in accordance with our policies and procedures, either in advance or when we become aware of a related person transaction that was not reviewed and approved in advance; however, the Board has not adopted a written policy or procedures governing its approval of transactions with related persons. Other than as described above, there were no related person transactions in the years ended December 31, 2021 or 2020. The transactions described above were approved by the sole director at the time they were entered into.

Common Stock

We have two authorized classes of common stock, Class A Common Stock and Class B Common Stock. Outstanding shares of Preferred Stock are convertible into shares of either Class A Common Stock or Class B Common Stock, with (A) the Series A Preferred Stock, the Series B Preferred Stock and the Series m-2 Preferred Stock (collectively, the “Super Voting Preferred Stock”) convertible into shares of Class B Common Stock, and (B) the Series m Preferred Stock, the Series m-1 Preferred Stock, the Series m-3 Preferred Stock, the Series m-4 Preferred Stock and the Series S Preferred Stock (collectively, the “Ordinary Preferred Stock”) convertible into shares of Class A Common Stock. The Class B Common Stock is convertible into shares of Class A Common Stock as described below.

Voting Rights

Each holder of Class B Common Stock shall be entitled to ten (10) votes for each share of Class B Common Stock held by such holder as of the applicable record date. Each holder of Class A Common Stock shall be entitled to one (1) vote for each share of Class A Common Stock held by such holder as of the applicable record date. Except as otherwise expressly provided in the certificate of incorporation or by applicable law, the holders of Class A Common Stock and the holders of Class B Common Stock shall at all times vote together as one class on all matters (including the election of directors) submitted to a vote or for the written consent of the stockholders of the Company.

Each holder of Preferred Stock shall be entitled to the number of votes equal to the number of votes to which each share of Common Stock is entitled for each such share of Common Stock into which such Preferred Stock could then be converted. The holders of shares of the Preferred Stock shall be entitled to vote on all matters on which the Common Stock shall be entitled to vote. Holders of Preferred Stock shall be entitled to notice of any stockholders’ meeting in accordance with the bylaws. Fractional votes shall not, however, be permitted and any fractional voting rights resulting from the above formula (after aggregating all shares into which shares of Preferred Stock held by each holder could be converted), shall be disregarded.

Except as otherwise expressly provided in the certificate of incorporation or as required by law, the holders of Preferred Stock, the holders of Class A Common Stock and the holders of Class B Common Stock shall vote together and not as separate classes, and there shall be no series voting.

Dividend Rights

Holders of the Company's common stock are entitled to receive dividends, as may be declared from time to time by the board of directors out of legally available funds and only following payment to holders of the Company's Preferred Stock, as detailed in the certificate of incorporation. Following payment of dividends to the holders of Preferred Stock in accordance with the preferential order set out in the certificate of incorporation, including the Series S Preferred Stock, any additional dividends set aside or paid in a given year, shall be set aside and paid among the holders of the Preferred Stock and common stock on an as-converted basis. The rights to dividends are not cumulative.

Liquidation Rights

In the event of a voluntary or involuntary liquidation, dissolution, or winding up of the Company, the holders of common stock are entitled to share ratably in the net assets legally available for distribution to stockholders after the payment of all debts and other liabilities of the Company and only after the satisfaction of any liquidation preferences granted to the holders of all shares of the outstanding Preferred Stock in accordance with the liquidation stack provided for in the certificate of incorporation of the Company.

Rights and Preferences

Holders of the Company's common stock have no preemptive, conversion, or other rights, and there are no redemptive or sinking fund provisions applicable to the Company's common stock, except that holders of the Class B Common Stock may convert their shares into shares of Class A Common Stock.

Conversion Rights

Each share of Class B Common Stock shall automatically convert into one share of Class A Common Stock upon any transfer of such shares other than for tax planning purposes and certain other limited exceptions, as outlined in the certificate of incorporation.

Each share of Class B Common Stock shall be convertible into one share of Class A Common Stock at the option of the holder thereof at any time upon written notice to the Company's transfer agent.

Ordinary Preferred Stock

The Company has authorized the issuance of the Series m Preferred Stock, the Series m-1 Preferred Stock, the Series m-3 Preferred Stock, the Series m-4 Preferred Stock and the Series S Preferred Stock (the "Ordinary Preferred Stock"), which contain substantially similar rights, preferences, and privileges, as other series of Preferred Stock, except as described below.

Conversion Rights

Shares of Ordinary Preferred Stock are convertible, at the option of the holder, at any time, into fully-paid nonassessable shares of the Company's Class A Common Stock at the then-applicable conversion rate. The conversion rate is subject to anti-dilution protective provisions that will be applied to adjust the number of shares of Class A Common Stock issuable upon conversion of the shares of the respective series of Preferred Stock, except Series m-3 Preferred Stock and Series m-4 Preferred Stock, in case shares of common stock, on an as converted basis, are issued for a price per share below the price per share of the relevant series of Preferred Stock, subject to customary exceptions, in accordance with the certificate of incorporation.

The initial conversion rate for the conversion of the Series m Preferred Stock and Series S Preferred Stock was 1:1, which conversion rate will continue to be adjusted pursuant to the broad-based weighted average anti-dilution adjustment provisions provided for in the certificate of incorporation.

Additionally, each share of Preferred Stock will automatically convert into Class A Common Stock or Class B Common Stock, as applicable, (i) immediately prior to the closing of a firm commitment underwritten public offering, registered under the Securities Act, (ii) with respect to Preferred Stock other than the Series m-4 Preferred Stock, upon the receipt by the Company of a written request for such conversion from the holders of a majority of the Preferred Stock other than the Series m-4 Preferred Stock then outstanding, or (iii)

with respect to the Series m-4 Preferred Stock, upon the receipt by the Company of a written request for such conversion from the holders of a majority of the Series m-4 Preferred Stock then outstanding. The stock will convert in the same manner as a voluntary conversion.

Voting Rights

Each holder of Ordinary Preferred Stock is entitled to that number of votes equal to one vote per share of Class A Common Stock into which such shares are convertible, as adjusted as discussed above for the Series m Preferred Stock and Series S Preferred Stock. Fractional votes are not permitted and if the conversion results in a fractional share, it will be disregarded. Holders of Ordinary Preferred Stock are entitled to vote on all matters submitted to a vote of the stockholders, including the election of directors, as a single class with the holders of common stock.

In connection with the Convertible Note Financing, William Santana Li, the Chief Executive Officer, was granted a voting proxy to vote substantially all of the shares of the Company's Series m-4 Preferred Stock, and the stock issued upon the conversion of warrants to purchase shares of the Company's Series m-3 Preferred Stock and upon the conversion of warrants to purchase shares of the Company's Series S Preferred Stock, and the stock issuable upon conversion of the convertible promissory notes issued as part of the Convertible Note Financing, in each case to the extent that such shares are held by participants in the Convertible Note Financing (the "Voting Proxy").

Dividend Rights

Holders of Series m-4 Preferred Stock are entitled to receive cumulative dividends payable semi-annually in arrears with respect to each dividend period ending on and including the last calendar day of each six-month period ending March 31 and September 30, respectively (each such period, a "Dividend Period" and each such date, a "Dividend Payment Date"), at the rate per share of Series m-4 Preferred Stock equal to the Dividend Rate for the Series m-4 Preferred Stock, in each case subject to compliance with applicable law. Dividends to holders of Series m-4 Preferred Stock are paid in kind as a dividend of additional shares of Series m-4 Preferred Stock ("PIK Dividends") for each Dividend Period on the applicable Dividend Payment Date using a price per share equal to the original issue price, provided that the Company shall not issue any fractional shares of Series m-4 Preferred Stock.

Except as described above, the Company has no obligation to pay any dividends to the holders of Series m-4 Preferred Stock, except when, as and if declared by the board of directors out of any assets at the time legally available therefor or as otherwise specifically provided in the certificate of incorporation. No distribution will be made with respect to the Series S Preferred Stock, the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock, the Series m-2 Preferred Stock, Series A Preferred Stock, Series m-3 Preferred Stock or the Common Stock until all declared or accrued but unpaid dividends on the Series m-4 Preferred Stock have been paid or set aside for payment to the Series m-4 Preferred Stockholders.

Right to Receive Liquidation Distributions

In the event of any Liquidation Event, as defined in the certificate of incorporation (which includes the liquidation, dissolution, merger, acquisition or winding up of the Company), the holders of the Series m-4 Preferred Stock are entitled to receive, prior and in preference to any distribution of any of the assets of the Company to the holders of the Series S Preferred Stock, Series A Preferred Stock, Series B Preferred Stock, Series m Preferred Stock, Series m-1 Preferred Stock, Series m-2 Preferred Stock, Series m-3 Preferred Stock or Common Stock by reason of their ownership of such stock, an amount per share for each share of Series m-4 Preferred Stock held by them equal to the greater of (A): the sum of (i) the Liquidation Preference specified for such share of Series m-4 Preferred Stock, and (ii) all accrued but unpaid PIK Dividends (if any) on such share of Series m-4 Preferred Stock, whether or not declared, or (B) the consideration that such Holder would receive in the Liquidation Event if all shares of Series m-4 Preferred Stock were converted to Class A Common Stock immediately prior to such Liquidation Event, or (C) such lesser amount as may be approved by the holders of the majority of the outstanding shares of Series m-4 Preferred Stock, where for purposes of (B) such Holder is deemed to hold, in addition to each of its shares of Series m-4 Preferred Stock, any additional shares of Series m-4 Preferred Stock that constitute all accrued but unpaid PIK Dividends, whether or not declared. If upon the Liquidation Event, the assets of the Company legally available for distribution to the holders of the Series m-4 Preferred Stock are insufficient to permit the payment to such holders of the full amounts specified in the certificate of incorporation, then the entire assets of the Company legally available for distribution shall be distributed with equal priority and pro rata among the holders of the Series m-4 Preferred Stock in proportion to the full amounts they would

otherwise be entitled to receive. The Series m-4 Preferred Stock has a \$7 per share liquidation preference, which is 2x its original issue price.

The holders of the Series S Preferred Stock are entitled to receive, prior and in preference to any distribution of any of the assets of the Company to the holders of the Series A Preferred Stock, Series B Preferred Stock, Series m Preferred Stock, Series m-1 Preferred Stock, Series m-2 Preferred Stock, Series m-3 Preferred Stock or Common Stock by reason of their ownership of such stock, an amount per share for each share of Series S Preferred Stock held by them equal to the greater of (A): the sum of (i) the Liquidation Preference specified for such share of Series S Preferred Stock, and (ii) all declared but unpaid dividends (if any) on such share of Series S Preferred Stock, or (B) the amount such Holder would receive if all shares of Series S Preferred Stock were converted to Common Stock immediately prior to such Liquidation Event, or (C) such lesser amount as may be approved by the holders of the majority of the outstanding shares of Series S Preferred Stock. If upon the Liquidation Event, the assets of the Company legally available for distribution to the holders of the Series S Preferred Stock are insufficient to permit the payment to such holders of the full amounts specified in the certificate of incorporation, then the entire assets of the Company legally available for distribution shall be distributed with equal priority and pro rata among the holders of the Series S Preferred Stock in proportion to the full amounts they would otherwise be entitled to receive.

The holders of the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock and the Series m-2 Preferred Stock shall be entitled to receive, prior and in preference to any distribution of any of the assets of the Company to the holders of the Series A Preferred Stock, Series m-3 Preferred Stock or Common Stock by reason of their ownership of such stock, an amount per share for each share of Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock and the Series m-2 Preferred Stock held by them equal to the greater of (A): the sum of (i) the Liquidation Preference specified for such share of Series B Preferred Stock, Series m Preferred Stock, Series m-1 Preferred Stock or Series m-2 Preferred Stock, as applicable, and (ii) all declared but unpaid dividends (if any) on such share of Series B Preferred Stock, Series m Preferred Stock, Series m-1 Preferred Stock or Series m-2 Preferred Stock, as applicable, or (B) the amount such Holder would receive if all shares of the applicable series of Preferred Stock were converted to Common Stock immediately prior to such Liquidation Event, or (C) such lesser amount as may be approved by the holders of the majority of the outstanding shares of Series B Preferred Stock, Series m Preferred Stock, Series m-1 Preferred Stock and Series m-2 Preferred Stock, voting together as a single class. If upon the Liquidation Event, the assets of the Company legally available for distribution to the holders of the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock and the Series m-2 Preferred Stock are insufficient to permit the payment to such holders of the full amounts specified in the certificate of incorporation, then the entire assets of the Company legally available for distribution shall be distributed with equal priority and pro rata among the holders of the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock and the Series m-2 Preferred Stock in proportion to the full amounts they would otherwise be entitled to receive.

The holders of Series m-3 Preferred Stock are entitled to receive, prior and in preference to any distribution of any of the assets of the Company to the holders of Common Stock by reason of their ownership of such stock, an amount per share for each share of Series m-3 Preferred Stock held by them equal to the greater of (A): the sum of (i) the Liquidation Preference specified for such share of Series m-3 Preferred Stock and (ii) all declared but unpaid dividends (if any) on such share of Series m-3 Preferred Stock, or (B) the amount such Holder would receive if all shares of Series m-3 Preferred Stock were converted to Common Stock immediately prior to such Liquidation Event, or (C) such lesser amount as may be approved by the holders of the majority of the outstanding shares of Series m-3 Preferred Stock. If upon a Liquidation Event, the assets of the Company legally available for distribution to the holders of the Series m-3 Preferred Stock are insufficient to permit the payment to such holders of the full amounts specified in the certificate of incorporation, then the entire assets of the Corporation legally available for distribution shall be distributed with equal priority and pro rata among the holders of the Series m-3 Preferred Stock in proportion to the full amounts they would otherwise be entitled to receive.

After payment of all liquidation preferences to the holders of the Preferred Stock, as outlined below, all remaining assets of the Company legally available for distribution shall be distributed pro rata to the holders of the common stock, without any participation in such liquidation by the Preferred Stock. The certificate of incorporation explicitly requires that before any shares of Preferred Stock are converted into common stock, the relevant holder's right to liquidation preference be surrendered, in order to prevent treatment of shares as both Preferred Stock and common stock for the purpose of distributions of assets upon a Liquidation Event.

Super Voting Preferred Stock

The Company has authorized the issuance of three other series of Preferred Stock. The series are designated Series A Preferred Stock, Series B Preferred Stock and Series m-2 Preferred Stock (the “Super Voting Preferred Stock”). Each series of Super Voting Preferred Stock contains substantially similar rights, preferences, and privileges, except as described below.

Dividend Rights

In any calendar year, the holders of outstanding shares of Preferred Stock are entitled to receive dividends, when, as and if declared by the board of directors, out of any assets at the time legally available therefor, at the dividend rate specified for such shares of Preferred Stock payable in preference and priority to any declaration or payment of any distribution on Common Stock of the Company in such calendar year. Except dividends to Series m-4 Preferred Stock specified above, the right to receive dividends on shares of Preferred Stock is not cumulative, and no right to dividends shall accrue to holders of Preferred Stock by reason of the fact that dividends on said shares are not declared or paid.

No distributions shall be made with respect to the Series S Preferred Stock, the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock, the Series m-2 Preferred Stock, Series A Preferred Stock or Series m-3 Preferred Stock unless dividends on the Series m-4 Preferred Stock have been declared in accordance with the preferences stated in the certificate of incorporation and all declared or accrued dividends on the Series m-4 Preferred Stock have been paid or set aside for payment to the Series m-4 Preferred Stock holders.

No distributions shall be made with respect to the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock, the Series m-2 Preferred Stock, Series A Preferred Stock or Series m-3 Preferred Stock unless dividends on the Series S Preferred Stock have been declared in accordance with the preferences stated in the certificate of incorporation and all declared dividends on the Series S Preferred Stock have been paid or set aside for payment to the Series S Preferred Stock holders.

No distributions shall be made with respect to the Series A Preferred Stock or Series m-3 Preferred Stock unless dividends on the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock and the Series m-2 Preferred Stock have been declared in accordance with the preferences stated in the certificate of incorporation and all declared dividends on the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock and the Series m-2 Preferred Stock have been paid or set aside for payment to the Series B Preferred Stock holders, the Series m Preferred Stock holders, the Series m-1 Preferred Stock holders and the Series m-2 Preferred Stock holders, as applicable.

No Distributions shall be made with respect to the Series m-3 Preferred Stock unless dividends on the Series A Preferred Stock have been declared in accordance with the preferences stated in the certificate of incorporation and all declared dividends on the Series A Preferred Stock have been paid or set aside for payment to the Series A Preferred Stockholders.

No Distributions shall be made with respect to the Common Stock unless dividends on the Series m-3 Preferred Stock have been declared in accordance with the preferences stated in the certificate of incorporation and all declared dividends on the Series m-3 Preferred Stock have been paid or set aside for payment to the Series m-3 Preferred Stockholders.

Conversion Rights

Shares of Preferred Stock are convertible, at the option of the holder, at any time, into fully-paid nonassessable shares of the Company’s Class A Common Stock or Class B Common Stock at the then-applicable conversion rate. Any shares of Super Voting Preferred Stock shall be convertible to shares of the Company’s Class B Common Stock. Any share of Preferred Stock convertible to shares of Class B Common Stock that has been transferred for any reason other than for tax planning purposes and certain other limited exceptions, as outlined in the Company’s certificate of incorporation, shall become convertible into shares of Class A Common Stock. The conversion rate is subject to anti-dilution protective provisions that will be applied to adjust the number of shares of Class A Common Stock or Class B Common Stock, as applicable, issuable upon conversion of the shares of the respective series of Preferred Stock. At the date of this Offering Circular, the conversion rate for both the Series A Preferred Stock and the Series B Preferred Stock is one share of Class A Common Stock or Class B Common Stock, as applicable, per one share of Preferred Stock. The initial conversion rate for the conversion of the Series m-2 Preferred Stock initially was 1:1.

Additionally, each share of Preferred Stock will automatically convert into Class A Common Stock or Class B Common Stock, as applicable, (i) immediately prior to the closing of a firm commitment underwritten public offering, registered under the Securities Act, (ii) with respect to Preferred Stock other than the Series m-4 Preferred Stock, upon the receipt by the Company of a written request for such conversion from the holders of a majority of the Preferred Stock other than the Series m-4 Preferred Stock then outstanding (voting as a single class and on an as-converted basis), or (iii) with respect to the Series m-4 Preferred Stock, upon the receipt by the Company of a written request for such conversion from the holders of a majority of the Series m-4 Preferred Stock then outstanding. The stock will convert in the same manner as a voluntary conversion.

Voting Rights

Each holder of Preferred Stock is entitled to that number of votes equal to the number of votes of shares of Class A Common Stock or Class B Common Stock, as applicable, into which such shares are convertible. This means that holders of Super Voting Preferred Stock shall be entitled to ten votes for each share held. Fractional votes are not permitted and if the conversion results in a fractional share, it will be disregarded. Holders of Preferred Stock are entitled to vote on all matters submitted to a vote of the stockholders, including the election of directors, as a single class with the holders of common stock.

Preemptive Rights

The Company has granted one investor in its Series m-2 Preferred Stock financing the right to invest up to their pro rata share on a fully-diluted basis in the offerings of securities of the Company. The combined pro-rata rights of such stockholder at the date of this Offering Circular constitute less than 1% of the fully-diluted capitalization of the Company.

Right to Receive Liquidation Distribution

In the event of a Liquidation Event, the holders of the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock and the Series m-2 Preferred Stock shall be entitled to receive, prior and in preference to any distribution of any of the assets of the Company to the holders of the Series A Preferred Stock, Series m-3 Preferred Stock or Common Stock by reason of their ownership of such stock, an amount per share for each share of Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock and the Series m-2 Preferred Stock held by them equal to the greater of: (A) the sum of (i) the Liquidation Preference specified for such share of Series B Preferred Stock, Series m Preferred Stock, Series m-1 Preferred Stock or Series m-2 Preferred Stock, as applicable, and (ii) all declared but unpaid dividends (if any) on such share of Series B Preferred Stock, Series m Preferred Stock, Series m-1 Preferred Stock or Series m-2 Preferred Stock, as applicable, or (B) the amount such Holder would receive if all shares of the applicable series of Preferred Stock were converted to Common Stock immediately prior to such Liquidation Event, or (C) such lesser amount as may be approved by the holders of the majority of the outstanding shares of Series B Preferred Stock, Series m Preferred Stock, Series m-1 Preferred Stock and Series m-2 Preferred Stock, voting together as a single class. If upon the Liquidation Event, the assets of the Company legally available for distribution to the holders of the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock and the Series m-2 Preferred Stock are insufficient to permit the payment to such holders of the full amounts specified in the certificate of incorporation, then the entire assets of the Company legally available for distribution shall be distributed with equal priority and pro rata among the holders of the Series B Preferred Stock, the Series m Preferred Stock, the Series m-1 Preferred Stock and the Series m-2 Preferred Stock in proportion to the full amounts they would otherwise be entitled to receive.

The holders of Series A Preferred Stock are entitled to receive, prior and in preference to any distribution of any of the assets of the Company to the holders of Common Stock or Series m-3 Preferred Stock by reason of their ownership of such stock, an amount per share for each share of Series A Preferred Stock held by them equal to the greater of: (A) the sum of (i) the Liquidation Preference specified for such share of Series A Preferred Stock and (ii) all declared but unpaid dividends (if any) on such share of Series A Preferred Stock, or (B) the amount such Holder would receive if all shares of Series A Preferred Stock were converted to Common Stock immediately prior to such Liquidation Event, or (C) such lesser amount as may be approved by the holders of the majority of the outstanding shares of Series A Preferred Stock. If upon a Liquidation Event, the assets of the Company legally available for distribution to the holders of the Series A Preferred Stock are insufficient to permit the payment to such holders of the full amounts specified in the certificate of incorporation, then the entire assets of the Company legally available for distribution shall be distributed with equal priority and pro rata among the holders of the Series A Preferred Stock in proportion to the full amounts they would otherwise be entitled to receive.

After payment of all liquidation preferences to the holders of Preferred Stock, as outlined above, all remaining assets of the Company legally available for distribution shall be distributed pro rata to the holders of the common stock, without any participation in such liquidation by the Preferred Stock.

The certificate of incorporation explicitly requires that before any shares of Preferred Stock are converted into common stock, the relevant holder's right to liquidation preference be surrendered, in order to prevent treatment of shares as both preferred stock and common stock for the purpose of distributions of assets upon a Liquidation Event.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a discussion of the material U.S. federal income and estate tax consequences of the ownership and disposition of our Class A common stock by a “non-U.S. holder” (as described below). This summary is limited to “non-U.S. holders” that hold our Class A common stock as a capital asset (generally, property held for investment for U.S. federal income tax purposes). This discussion does not address all aspects of U.S. federal income and estate taxation that may be relevant to non-U.S. holders in light of their particular circumstances, does not discuss alternative minimum tax and Medicare contribution tax consequences and does not address any tax consequences arising under the laws of any state, local or foreign jurisdiction. This discussion also does not address all of the consequences relevant to holders subject to special tax rules, such as:

- a non-U.S. holder that is a financial institution, insurance company, regulated investment company, tax-exempt organization, pension plan, broker, dealer or trader in stocks, securities or currencies, U.S. expatriate, controlled foreign corporation or passive foreign investment company;
- a non-U.S. holder holding common stock as part of a conversion, constructive sale, wash sale or other integrated transaction or a hedge, straddle or synthetic security;
- a non-U.S. holder whose functional currency is not the U.S. dollar;
- a non-U.S. holder that holds or receives Class A common stock pursuant to the exercise of any employee stock option or otherwise as compensation; or
- a non-U.S. holder that at any time owns, directly, indirectly or constructively, 5% or more of our outstanding capital stock.

A “non-U.S. holder” is a beneficial owner of a share of our Class A common stock that is, for U.S. federal income tax purposes:

- a non-resident alien individual, other than a former citizen or resident of the United States subject to U.S. tax as an expatriate,
- a foreign corporation or any foreign organization taxable as a corporation for U.S. federal income tax purposes, or
- a foreign estate or trust.

If a partnership or other pass-through entity (including an entity or arrangement treated as a partnership or other type of pass-through entity for U.S. federal income tax purposes) owns our Class A common stock, the tax treatment of a partner or beneficial owner of the entity may depend upon the status of the owner, the activities of the entity and certain determinations made at the partner or beneficial owner level. Partners and beneficial owners in partnerships or other pass-through entities that own our Class A common stock should consult their tax advisors as to the particular U.S. federal income and estate tax consequences applicable to them.

This discussion is based on the Code, and administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations, changes to any of which subsequent to the date of this prospectus may affect the tax consequences described herein (possibly with retroactive effect). Prospective holders are urged to consult their tax advisors with respect to the particular tax consequences to them of owning and disposing of our Class A common stock, including the consequences under the laws of any state, local or foreign jurisdiction.

Distributions

We do not currently expect to pay any cash distributions on our Class A common stock. If we make distributions of cash or property (other than certain pro rata distributions of common stock) with respect to our Class A common stock, to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles), such distributions generally will be subject to U.S. federal withholding tax at a 30% rate, or such reduced rate as may be specified by an applicable income tax treaty, subject to the discussion of FATCA and backup withholding taxes below. In order to obtain a reduced rate of withholding under an applicable income tax treaty, a non-U.S. holder generally will be required to provide a properly executed U.S. Internal Revenue Service (“IRS”) Form W-8BEN or IRS Form W-8BEN-E, as applicable, certifying its entitlement to benefits under the applicable treaty. To the

extent such distributions exceed our current and accumulated earnings and profits, they will constitute a tax-free return of capital, which will first reduce your adjusted tax basis in our Class A common stock, but not below zero, and thereafter will be treated as a gain from the sale or other disposition of our Class A common stock, as described below under “Gain on Disposition of Our Class A Common Stock.”

Dividends paid to a non-U.S. holder that are effectively connected with the non-U.S. holder’s conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States) will not be subject to U.S. federal withholding tax if the non-U.S. holder provides a properly executed IRS Form W-8ECI. Instead, the effectively connected dividend income will generally be subject to regular U.S. income tax as if the non-U.S. holder were a United States person as defined under the Code. A non-U.S. holder that is treated as a corporation for U.S. federal income tax purposes may also be subject to an additional “branch profits tax” imposed at a rate of 30% on the effectively connected dividend income, or such reduced rate as may be specified by an applicable income tax treaty.

Gain on Disposition of Our Class A Common Stock

Subject to the discussions of backup withholding and FATCA withholding taxes below, a non-U.S. holder generally will not be subject to U.S. federal income tax on gain realized on a sale or other disposition of common stock unless:

- the gain is effectively connected with the non-U.S. holder’s conduct of a trade or business in the United States (and, if required by an applicable tax treaty, the gain is attributable to a permanent establishment or fixed base maintained by the non-U.S. holder in the United States), in which case the gain will be subject to U.S. federal income tax generally in the same manner as effectively connected dividend income as described above;
- the non-U.S. holder is an individual present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are met, in which case the gain (net of certain U.S.-source losses) generally will be subject to U.S. federal income tax at a rate of 30% (or such reduced rate as may be specified by an applicable income tax treaty); or
- we are or have been a “United States real property holding corporation” (as described below), at any time during the shorter of the five-year period preceding the disposition or the period that the non-U.S. holder owned our Class A common stock, and the non-U.S. holder has owned, directly or constructively, more than 5% of our Class A common stock at any time during the shorter of the five-year period preceding the disposition or such non-U.S. holder’s holding period for our Class A common stock; provided, that our Class A common stock is regularly traded on an established securities market during the calendar year in which the sale or disposition occurs.

We will be a United States real property holding corporation at any time that the fair market value of our “United States real property interests,” as defined in the Code and applicable Treasury Regulations, equals or exceeds 50% of the aggregate fair market value of our worldwide real property interests and our other assets used or held for use in a trade or business. We believe that we are not, and do not anticipate becoming in the foreseeable future, a United States real property holding corporation. However, there can be no assurance in this regard and non-U.S. holders are urged to consult their tax advisors regarding the application of these rules.

Information Reporting Requirements and Backup Withholding

Information returns are required to be filed with the IRS in connection with distributions on our Class A common stock. A non-U.S. holder may have to comply with certification procedures to establish that it is not a U.S. person in order to avoid additional information reporting and backup withholding. The certification procedures required to claim a reduced rate of withholding under a treaty generally will satisfy the certification requirements necessary to avoid backup withholding as well.

Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a non-U.S. holder generally will be allowed as a credit against the non-U.S. holder’s U.S. federal income tax liability and may entitle the non-U.S. holder to a refund, provided that the required information is furnished to the IRS in a timely manner.

FATCA Withholding Taxes

Provisions of the Code and Treasury Regulations and administrative guidance promulgated thereunder commonly referred as the “Foreign Account Tax Compliance Act” (“FATCA”) generally impose withholding at a rate of 30% in certain circumstances on dividends in respect of our Class A common stock which are held by or through certain foreign financial institutions (including investment funds), unless any such institution (1) enters into, and complies with, an agreement with the IRS to report, on an annual basis, information with respect to interests in, and accounts maintained by, the institution that are owned by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments, or (2) if required under an intergovernmental agreement between the United States and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. An intergovernmental agreement between the United States and an applicable foreign country may modify these requirements. Accordingly, the entity through which our Class A common stock is held will affect the determination of whether such withholding is required. Similarly, dividends in respect of our Class A common stock held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exceptions generally will be subject to withholding at a rate of 30%, unless such entity either (1) certifies to us or the applicable withholding agent that such entity does not have any “substantial United States owners” or (2) provides certain information regarding the entity’s “substantial United States owners,” which will in turn be provided to the U.S. Department of Treasury.

Withholding under FATCA was scheduled to apply to payments of gross proceeds from the sale or other disposition of property that produces U.S.-source interest or dividends, however, the IRS released proposed regulations that, if finalized in their proposed form, would eliminate the obligation to withhold on such gross proceeds. Although these proposed Treasury Regulations are not final, taxpayers generally may rely on them until final Treasury Regulations are issued. Prospective investors should consult their tax advisors regarding the possible implications of FATCA on their investment in our Class A common stock.

Federal Estate Tax

Individual non-U.S. holders (as specifically defined for U.S. federal estate tax purposes) and entities the property of which is potentially includible in such an individual’s gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers) should note that the common stock will be treated as U.S. situs property subject to U.S. federal estate tax, unless an applicable estate tax treaty provides otherwise.

PRINCIPAL STOCKHOLDERS

The following table sets out certain information with respect to the beneficial ownership of the voting securities of the Company, as of March 31, 2022, for:

- each person who we know beneficially owns more than 5% of any class of our voting securities.
- each of our directors;
- each of our named executive officers; and
- all of our directors and executive officers as a group.

Percentage ownership is based on 23,877,817 shares of Class A common stock outstanding and 10,378,251 shares of Class B common stock outstanding, in each case, as of March 31, 2022.

We have determined beneficial ownership in accordance with the rules of the SEC. Under these rules, beneficial ownership includes any shares as to which the individual or entity has sole or shared voting power or investment power. In computing the number of shares beneficially owned by an individual or entity and the percentage ownership of that person, shares subject to options, or other rights, held by such person that are currently exercisable or will become exercisable within 60 days of the date of March 31, 2022, are considered outstanding, although these shares are not considered outstanding for purposes of computing the percentage ownership of any other person. Unless otherwise indicated, the address of all listed stockholders is c/o Knightscope, Inc., 1070 Terra Bella Avenue, Mountain View, California 94043. Except as indicated by the footnotes below, we believe that the persons and entities named in the table below have sole voting and investment power with respect to all securities that they beneficially own, subject to applicable community property laws.

SELLING STOCKHOLDER

This prospectus relates to the offer and resale by the Selling Stockholder of up to 12,197,776 shares of Class A common stock that have been and may be issued by us to the Selling Stockholder under the Purchase Agreement. For additional information regarding the shares of Class A common stock included in this prospectus, see “The Committed Equity Financing.” We are registering the shares of Class A common stock included in this prospectus pursuant to the provisions of the Registration Rights Agreement we entered into with the Selling Stockholder on April 4, 2022 in order to permit the Selling Stockholder to offer the shares included in this prospectus for resale from time to time. Except for the transactions contemplated by the Purchase Agreement and the Registration Rights Agreement and as set forth in the section titled “Plan of Distribution” in this prospectus, the Selling Stockholder has not had any material relationship with us within the past three years. As used in this prospectus, the term “Selling Stockholder” means B. Riley Principal Capital, LLC.

The table below presents information regarding the Selling Stockholder and the shares of Class A common stock that may be resold by the Selling Stockholder from time to time under this prospectus. This table is prepared based on information supplied to us by the Selling Stockholder, and reflects holdings as of April 4, 2022. The number of shares in the column “Maximum Number of Shares of Class A Common Stock to be Offered Pursuant to this Prospectus” represents all of the shares of Class A common stock being offered for resale by the Selling Stockholder under this prospectus. The Selling Stockholder may sell some, all or none of the shares being offered for resale in this offering. We do not know how long the Selling Stockholder will hold the shares before selling them, and we are not aware of any existing arrangements between the Selling Stockholder and any other stockholder, broker, dealer, underwriter or agent relating to the sale or distribution of the shares of our Class A common stock being offered for resale by this prospectus.

Beneficial ownership is determined in accordance with Rule 13d-3(d) promulgated by the SEC under the Exchange Act, and includes shares of Class A common stock with respect to which the Selling Stockholder has sole or shared voting and investment power. The percentages of shares of Class A common stock beneficially owned by the Selling Stockholder in the table below are based on an aggregate of 23,977,207 shares of our Class A common stock outstanding on April 4, 2022. Because the purchase price to be paid by the selling stockholder for shares of Class A common stock, if any, that we may elect to sell to the selling stockholder in one or more Purchases and Intraday Purchases from time to time under the Purchase Agreement will be determined on the applicable Purchase Dates for such Purchases and Intraday Purchases, the actual number of shares of Class A common stock that we may sell to the Selling Stockholder under the Purchase Agreement may be fewer than the number of shares being offered for resale under this prospectus. The fourth column assumes the resale by the Selling Stockholder of all of the shares of Class A common stock being offered for resale pursuant to this prospectus.

| <u>Name of Selling Stockholder</u> | Number of Shares of Class A Common Stock Owned Prior to Offering | | Maximum Number of Shares of Class A Common Stock to be Offered Pursuant to this Prospectus | Number of Shares of Class A Common Stock Owned After Offering | |
|------------------------------------|--|---------|---|---|------------|
| | Number ⁽¹⁾ | Percent | | Number ⁽³⁾ | Percent |
| | B. Riley Principal Capital, LLC ⁽³⁾ | 98,888 | | * | 12,197,776 |

* Represents beneficial ownership of less than 1% of the outstanding shares of our Class A common stock.

(1) Represents the 98,888 shares of Class A common stock we issued to the Selling Stockholder on April 4, 2022 as Initial Commitment Shares as consideration for entering into the Purchase Agreement with us. In accordance with Rule 13d-3(d) under the Exchange Act, we have excluded from the number of shares beneficially owned prior to the offering (i) all of the shares that the Selling Stockholder may be required to purchase under the Purchase Agreement and (ii) all of the Additional Commitment Shares that we may issue to the Selling Stockholder as consideration for its commitment to purchase shares of Class A common stock at our election under the Purchase Agreement, if certain conditions are met, in each case, because the issuance of such shares is solely at our discretion and is subject to conditions contained in the Purchase Agreement (and with respect to the Additional Commitment Shares, are issuable to the Selling Stockholder only upon the purchase of certain aggregate dollar amounts of our Class A common stock under the Purchase Agreement, which purchases are entirely in our sole discretion), the satisfaction of which are entirely outside of the Selling Stockholder’s control, including, among other things, the registration statement that includes this prospectus becoming and remaining effective and the sale

threshold conditions related to the Additional Commitment Shares. Furthermore, the Purchases and Intraday Purchases of Class A common stock under the Purchase Agreement are subject to certain agreed upon maximum amount limitations set forth in the Purchase Agreement. Also, the Purchase Agreement prohibits us from issuing and selling any shares of our Class A common stock to the Selling Stockholder to the extent such shares, when aggregated with all other shares of our Class A common stock then beneficially owned by the Selling Stockholder, would cause the Selling Stockholder's beneficial ownership of our Class A common stock to exceed the 4.99% Beneficial Ownership Cap. The Purchase Agreement also prohibits us from issuing or selling shares of our Class A common stock under the Purchase Agreement in excess of the 19.99% Exchange Cap, unless we obtain shareholder approval to do so, or unless the average price for all shares of our Class A common stock purchased by the Selling Stockholder under the Purchase Agreement equals or exceeds \$4.6802 per share, such that the Exchange Cap limitation would not apply under applicable Nasdaq rules. Neither the Beneficial Ownership Cap nor the Exchange Cap (to the extent applicable under Nasdaq rules) may be amended or waived under the Purchase Agreement.

(2) Assumes the sale of all shares being offered pursuant to this prospectus.

(3) The business address of B. Riley Principal Capital, LLC ("BRPC") is 11100 Santa Monica Blvd., Suite 800, Los Angeles, California 90025. BRPC's principal business is that of a private investor. The sole member of BRPC is B. Riley Principal Investments, LLC ("BRPI"), which is an indirect subsidiary of B. Riley Financial, Inc. ("BRF"). An Investment Committee of BRPC (the "BRPC Investment Committee"), which is composed of three members appointed by BRPI, has sole voting power and sole investment power over securities beneficially owned, directly, by BRPC. All decisions with respect to the voting and disposition of securities beneficially owned, directly, by BRPC are made exclusively by majority vote of the BRPC Investment Committee, each member of the BRPC Investment Committee having one vote, and no single member of the BRPC Investment Committee has any ability to make any such decisions unilaterally or any veto power with respect to decisions that are made by the vote of a majority of the members of the BRPC Investment Committee. The sole voting and investment powers of the BRPC Investment Committee over securities beneficially owned, directly, by BRPC are exercised independently from all other direct and indirect subsidiaries of BRF, and the voting and investment powers over securities beneficially owned directly or indirectly by all other direct and indirect subsidiaries of BRF are exercised independently from BRPC. We have been advised that neither BRPI nor BRPC is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA") or an independent broker-dealer, and that none of the BRPC Investment Committee members is a registered FINRA member or an associated person of a FINRA member or an independent broker-dealer.

In addition, in certain states, the shares may not be sold unless they have been registered or qualified for sale in the state or an exemption from the state's registration or qualification requirement is available and complied with.

The Selling Stockholder is an "underwriter" within the meaning of Section 2(a)(11) of the Securities Act.

The Selling Stockholder has informed us that it presently anticipates using, but is not required to use, B. Riley Securities, Inc., a registered broker-dealer and FINRA member, as a broker to effectuate resales, if any, of our Class A common stock that it may acquire from us pursuant to the Purchase Agreement, and that it may also engage one or more other registered broker-dealers to effectuate resales, if any, of such Class A common stock that it may acquire from us. Such resales will be made at prices and at terms then prevailing or at prices related to the then current market price. Each such registered broker-dealer will be an underwriter within the meaning of Section 2(a)(11) of the Securities Act. The Selling Stockholder has informed us that each such broker-dealer it engages to effectuate resales of our Class A common stock on its behalf, excluding B. Riley Securities, Inc., may receive commissions from the Selling Stockholder for executing such resales for the Selling Stockholder and, if so, such commissions will not exceed customary brokerage commissions.

Except as set forth above, we know of no existing arrangements between the Selling Stockholder and any other stockholder, broker, dealer, underwriter or agent relating to the sale or distribution of the shares of our Class A common stock offered by this prospectus.

Brokers, dealers, underwriters or agents participating in the distribution of the shares of our Class A common stock offered by this prospectus may receive compensation in the form of commissions, discounts, or concessions from the purchasers, for whom the broker-dealers may act as agent, of the shares sold by the Selling Stockholder through this prospectus. The compensation paid to any such particular broker-dealer by any such purchasers of shares of our Class A common stock sold by the Selling Stockholder may be less than or in excess of customary commissions. Neither we nor the Selling Stockholder can presently estimate the amount of compensation that any agent will receive from any purchasers of shares of our Class A common stock sold by the Selling Stockholder.

We may from time to time file with the SEC one or more supplements to this prospectus or amendments to the registration statement, of which this prospectus forms a part, to amend, supplement or update information contained in this prospectus, including, if and when required under the Securities Act, to disclose certain information relating to a particular sale of shares offered by this prospectus by the Selling Stockholder, including with respect to any compensation paid or payable by the Selling Stockholder to any brokers, dealers, underwriters or agents that participate in the distribution of such shares by the Selling Stockholder, and any other related information required to be disclosed under the Securities Act.

We will pay the expenses incident to the registration under the Securities Act of the offer and sale of the shares of our Class A common stock covered by this prospectus by the Selling Stockholder.

As consideration for its irrevocable commitment to purchase our Class A common stock under the Purchase Agreement, we issued to the Selling Stockholder 98,888 shares of our Class A common stock as Initial Commitment Shares upon execution of the Purchase Agreement and the Registration Rights Agreement. In addition, (i) upon our receipt of total aggregate gross cash proceeds equal to \$25,000,000 as payment by the Selling Stockholder for all shares of our Class A common stock purchased in all Purchases and Intraday Purchases (as applicable) effected by us pursuant to the Purchase Agreement, we will issue 59,333 additional shares of our Class A common stock to the Selling Stockholder as Additional Commitment Shares, and (ii) upon our receipt of total aggregate gross cash proceeds equal to \$50,000,000 from the Selling Stockholder under the Purchase Agreement, we will issue an additional 39,555 shares of our Class A common stock to the Selling Stockholder as Additional Commitment Shares, totaling 98,888 Additional Commitment Shares (in addition to the 98,888 Initial Commitment Shares we issued to the Selling Stockholder upon execution of the Purchase Agreement). Finally, we have reimbursed the Selling Stockholder \$75,000 for the fees and disbursements of its counsel in connection with the transactions contemplated by the Purchase Agreement and the Registration Rights Agreement.

We have also previously engaged Digital Offering LLC (“Digital Offering”) to act as our non-exclusive placement agent in connection with the transactions contemplated by the Purchase Agreement. In connection with such engagement, we have agreed to pay Digital Offering 4.5% of the aggregate gross proceeds from sales of our Class A common stock to the Selling Stockholder that we may, in our discretion, elect to make, from time to time after the date of this prospectus, pursuant to the Purchase Agreement, or up to \$4,500,000.

We also have agreed to indemnify the Selling Stockholder and certain other persons against certain liabilities in connection with the offering of shares of our Class A common stock offered hereby, including liabilities arising under the Securities Act or, if such indemnity is unavailable, to contribute amounts required to be paid in respect of such liabilities. The Selling Stockholder has agreed to indemnify us against liabilities under the Securities Act that may arise from certain written information furnished to us by the Selling Stockholder specifically for use in this prospectus or, if such indemnity is unavailable, to contribute amounts required to be paid in respect of such liabilities. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, and controlling persons, we have been advised that in the opinion of the SEC this indemnification is against public policy as expressed in the Securities Act and is therefore, unenforceable.

We estimate that the total expenses for the offering will be approximately \$225,000.

The Selling Stockholder has represented to us that at no time prior to the date of the Purchase Agreement has the Selling Stockholder, its officers, its sole member, or any entity managed or controlled by the Selling Stockholder or its sole member, engaged in or effected, in any manner whatsoever, directly or indirectly, for its own account or for the account of any of its affiliates, any short sale (as such term is defined in Rule 200 of Regulation SHO of the Exchange Act) of our Class A common stock or any hedging transaction, which establishes a net short position with respect to our Class A common stock. The Selling Stockholder has agreed that during the term of the Purchase Agreement, none of the Selling Stockholder, its officers, its sole member, or any entity managed or controlled by the Selling Stockholder or its sole member, will enter into or effect, directly or indirectly, any of the foregoing transactions for its own account or for the account of any other such person or entity.

We have advised the Selling Stockholder that it is required to comply with Regulation M promulgated under the Exchange Act. With certain exceptions, Regulation M precludes the Selling Stockholder, any affiliated purchasers, and any broker-dealer or other person who participates in the distribution from bidding for or purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of the distribution until the entire distribution is complete. Regulation M also prohibits any bids or purchases made in order to stabilize the price of a security in connection with the distribution of that security. All of the foregoing may affect the marketability of the securities offered by this prospectus.
